# ULTRA™

## Roofing Underlayment

## Designed For Extreme Temperature Roof Assemblies

Ideal for copper,  
zinc, and  
COR-TEN® Roofs

Excellent for high  
altitude and desert  
climates

Backed by Grace  
The name that  
roofing professionals  
trust

Grace® Ultra™ self-adhered, smooth surface roofing underlayment features a 100% butyl adhesive formula. Grace Ultra™ roofing underlayment delivers best in-class water protection in applications, where withstanding high in-service temperatures for extended periods of time is required.

*“Grace® underlayments are far superior to any product we have used in the past. When applied properly they perform flawlessly. They adhere very well to roof decks and seal each and every nail penetration unlike many other products we have used in the past.”*

—Kevin Menezes of Triple M Contracting Inc.

# Why **GRACE ULTRA™** Roofing Underlayment?

A unique waterproofing solution that matches the long term durability of copper roofs

## **Heat Resistance up to 300°F—**

100% butyl adhesive is perfect for use in elevated temperatures, in hot desert Southwest climates or any application, where superior heat resistance is required

*Peace of mind against extreme conditions*

## **Superior Protection for Expensive Metal Roofs -**

Protect your clients' high end roof coverings with Grace Ultra™ roofing underlayment's unique solution

*High quality protection for high quality jobs*

## **Membrane bonds firmly to roof deck and forms high quality laps—**

Ensures watertight seal and premium leak protection

*Do the job right the first time*

## **Compatible with roofing materials—**

Provides watertight transition between low slope & steep slope roofs

*Don't compromise waterproof integrity due to material compatibility*
