

### Carpets

Project: Brunel University, West London

Education

“ The carpet from Gradus is durable enough to cope with everyday use and wear and tear, without compromising on aesthetics and comfort. ”

Martyn King  
Brunel University Student Residences

Gradus has supplied carpet from its Freeway range for this impressive student residential complex at Brunel University. Completed in time for the start of the 2008 academic year, the Isambard residential complex provides quality accommodation and facilities for new and existing students.

Freeway was installed throughout the complex, with colourway - Sea Breeze (blue) in the corridors and lift areas and colourway - Old Stone (dark beige) in the bedrooms. Offering excellent wear and tear resistance, making it suitable for busy corridors with frequent pedestrian traffic, Freeway's dense pile also provides excellent under foot comfort. Plus, the polypropylene face yarn is easy to clean, reducing the university's cleaning and maintenance costs.

Available in 12 different colourways, the Freeway range can be supplied as broadloom or with a specially engineered, impervious Aquabac backing system, providing protection for the subfloor from liquid spills.

#### Product Specified:

- Product: **Freeway** (colourways - Sea Breeze and Old Stone)
- Construction: Tufted Cut Pile
- Fibre: 100 percent Polypropylene
- Warranty: 8 year wear

**Freeway**
