

### Carpets

Project: Spire Cheshire Hospital, Warrington

“ Complementing the surrounding contemporary interior, the carpet provides a stylish floor scheme which helps to create a welcoming and relaxing environment for patients. ”

Karen Burman  
Floorcoverings Product Manager

Spire Cheshire Hospital offers private comprehensive medical and surgical treatment and personal care.

In October 2011, the hospital completed a refurbishment to its main reception area. Adventurer carpet tiles in colour 'Oregon Forest' (green) and SqMile carpet tiles in colour 'Holborn' (purple) from Gradus have been installed throughout the main reception area at the hospital. The two colours have been installed together to create an interesting and unique design on the floor. The new refurbishment offers a fresh and contemporary environment for both patients and staff.

The Adventurer carpet range is available in a choice of 12 contemporary colours in loop pile construction and the SqMile carpet range is available in a choice of 16 contemporary colours in cut pile construction. Both Adventurer and SqMile provide a high level of style and versatility for a wide range of environments.
