

Dales Collection Tree Grilles & Guards

The Dales Collection is both attractive and functional, allowing architectural flair at the same time protecting young trees and promoting healthy tree pits.

Product Description:

The Dales Collection tree guards provide essential protection for trees from vehicles, animals and pedestrians in urban and parkland settings. The guards are hot dip galvanised to BS729 and painted in black high build vinyl which ensures every guard has the same high quality finish. Dales Collection tree guards can be fitted using a type 2 frame when using a grille or ground fixed when grilles are not required.

Dales Collection tree grilles are designed so that the young tree can receive water naturally through rainfall, preventing the soil within the tree pit becoming compacted.

All gt Tree Grilles are primed and coated twice with a rust resistant gloss finish. The grilles have been selected to offer a diverse range of different styles and sizes to suit all landscaping projects.

Specification:

- **Material:** Mild Steel.
- **Finish:** Hot Dip Galvanised to BS 729 Tree Grilles can be finished in any RAL or BS Colours.
- **Supporting Frames:** All tree grilles come with medium duty steel frames in two halves. Other heavier duty frames or paving support frames available on request
