## COSiFLOOR

### UNDER FLOOR INSULATION

- Cuts heat loss and draughts
- Reduces migratory fibres
- Easy to install by contractor or DIY
- Overlap tabs for secure fixing
- Neat finish, no sagging

Available in the following sizes:

600mm Centres			
2 Rolls Per Pack	100mm x 9.5mtrs	150mm x 7.5mtrs	200mm x 5.5mtrs
Roll Coverage M2	5.7M	4.5M	3.3M
400mm Centres			
3 Rolls Per Pack	100mm x 9.5mtrs	150mm x 7.5mtrs	200mm x 5.5mtrs
Roll Coverage M2	3.8M	3M	2.2M

Fitting instructions:

1. Unroll Cosifloor and shake out well (this helps the insulation to recover after being compressed in packaging)
2. Push the insulation up between the floor joists and fix into position with staples, ensuring that tension is kept on the membrane (this will maintain a tight finish)
3. Always use the appropriate PPE when working with insulation products. i.e such as gloves, protective goggles and face masks.
