Bench BKS09150
Table TKS09150

Durable & Vandal Resistant

hanit[®] is a unique blend of recycled plastic that is formulated for strength, durability and stability. **hanit**[®] benches can typically last up to 50 years and because the material is inert, it is resistant to chemicals such as cleaning products, oils and greases. Graffiti can be easily cleaned off.

Maintenance Free

hanit[®] furniture does not absorb water and is weather and micro-organism resistant. It does not require painting, staining or regular treating.

Attractive & Versatile Appearance

hanit[®] furniture comes in brown or black as standard. Other colours such as blue, green, red and grey are available in some models. They all have a natural and smooth finish.
