|  | Black chrome polished    |  |  |

### HEWI Colours compared with RAL and NCS

HEWI Colours have been classified by RAL and NCS and allocated the nearest possible colour classification. Identical colours do not exist in the RAL and NCS systems. In cases where HEWI colours and the colour classification differ too greatly, no classification appears in the table. **Personal colour comparison should still be performed.** Due to printing process colours shown may differ slightly from the product.
