

NEW FOR 2014

arborClad
THERMORY-ASH

A high performance
thermally treated hardwood
cladding solution

WITH IMPROVED STABILITY AND
DURABILITY QUALITIES, THERMALLY
TREATED CLADDING PROVIDES ADDED
LONG TERM BENEFITS AND FLEXIBILITY.

- Thermo-treated wood has a very long lifetime, higher dimensional stability and lower equilibrium moisture content compared to untreated wood
- All the advantages of thermo-treated wood make it an environmentally friendly alternative to tropical hardwoods
- No need for maintenance or surface treatment
- Will silver grey (oxidation) in a more uniform manner than normal timber cladding
- 100% treatment penetration of boards - eliminates most insect attacks and rotting of timber normally caused by fittings
- Available FSC® certified on request
- Can be painted or stained

PROFILE / OFFSET
PROFILE / SHIPLAP
