

John Lord is the UK agent for all PolySto hygienic wall protection; the European leading manufacturer, supplier and installer of wall kerb and cladding, posts, barriers, and protection strips.

Product Description

The PV8F Skirting is a prefabricated full core covered skirting, manufactured from a non toxic unleaded PVC.

The skirting reduces the ingress of liquids and provides protection to existing walls and columns from the floor and existing kerbing.

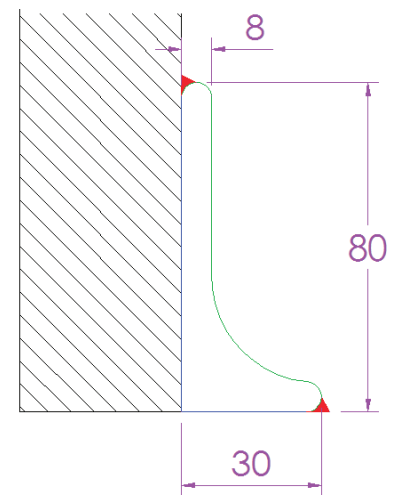

- > Sealed and fixed to floor and wall with PolySto Hard Fix Glue.
- > PolySto white sealant for the top skirting joint.
- > PolySto transparent sealant for the bottom skirting joint.
- > Meets EU standards.

Installation

John Lord provide a full installation service and on-going staff training. Annual inspections and maintenance contracts are also available.
