

KALDEWEI

KALDEWEI STEEL ENAMEL 3.5mm with 30 years GUARANTEE

Steel and glass – two entirely authentic and natural materials, used for centuries, and each with its own inherent material properties. Steel signifies strength, toughness, robustness and optimum ductility. Glass is highly resistant to chemical or thermal stress and has an excellent appearance. KALDEWEI steel enamel 3.5 mm combines robust steel and tough glass to form an inseparable bond harnessing the strengths of each material in perfect symbiosis. As a pioneer consistently pushing the boundaries to make the good even better, KALDEWEI has steadily advanced, refined and optimised the special formula and manufacturing processes of KALDEWEI steel enamel 3.5 mm for almost a century now. KALDEWEI steel enamel 3.5 mm guarantees lasting quality that remains visible, tangible and irresistible day after day.

Scratch, abrasion and impact resistant – KALDEWEI steel enamel 3.5 mm is much harder than acrylic and highly resistant to mechanical stress.

Acid and chemical resistant – perfume, cosmetic and medicinal bath additives and common household detergents will not harm the surface.

Heat resistant – burning and glowing objects such as cigarettes or candles do not leave marks on the surface.

Colour fast and UV light resistant – KALDEWEI steel enamel 3.5 mm retains its original colour without fading or yellowing.

Dimensionally stable – KALDEWEI baths and shower trays hardly expand at all in temperature fluctuations, thereby minimising the risk of cracked joints or structural damage from moisture penetration.

Hygienic and low maintenance – the glass-hard surface is hygienic and easy to clean.

PRECISION *in* perfection. The KALDEWEI QUALITY PROMISE

Californian borax, quartz, Scandinavian feldspar and soda. KALDEWEI uses these natural materials to produce a special enamel coating based on its own formula. KALDEWEI steel enamel 3.5 mm is the result of a process in which the enamel is fired onto high-grade steel in large U-type furnaces.

The right composition of steel and enamel is vital for the quality of the products, but so is the thickness of 3.5 mm to ensure stability and durability. The glass-hard enamel coating leaves the surface resistant to impact, scratches and abrasion. Even after frequent use, KALDEWEI products therefore will look just as good as on the first day.

The enamel is sprayed onto the steel and fired at a temperature of 850 to 900 °C, melting the enamel into a thin, yet highly durable glass finish.

YESTERDAY. *TODAY.* TOMORROW. Excellent material *is the* BEST GUARANTEE

Crafting an extraordinary product requires uniquely engineered material. The baths and shower trays made of KALDEWEI steel enamel 3.5 mm combine aesthetics and sensuousness with superior quality. Masterfully produced in-house, the exquisite material promises outstanding and lasting quality that comes with a 30-year guarantee.

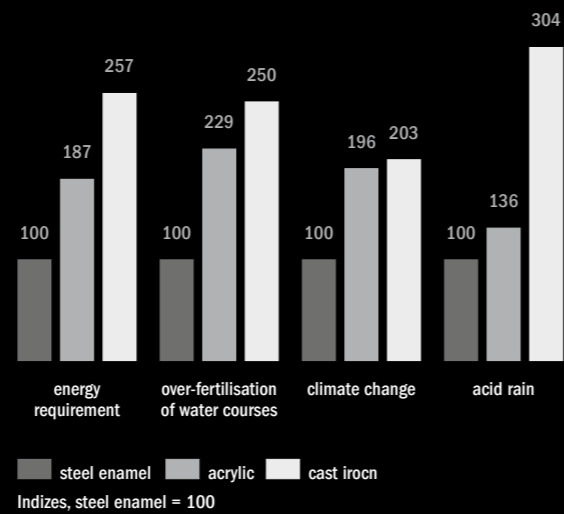

KALDEWEI offers a 30-year guarantee with guarantee certificate on all baths, shower trays and enamelled shower surfaces.

Ecological
SUSTAINABILITY.
 FOR *more* than 90 years

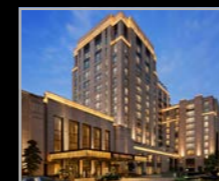

KALDEWEI has stood for outstanding design, superior quality „made in Germany“ and ecological sustainability for more than 90 years. In line with the consistent implementation of its material philosophy, all baths and shower trays made of KALDEWEI steel enamel 3.5 mm can be completely recycled at the end of their useful lives. Thanks to the environmentally compatible procedures used in manufacture, packaging, transportation and disposal, KALDEWEI was the first bathroom manufacturer to be certified sustainable to ISO 14025 by the Institut Bauen und Umwelt e.V., the Institute of Building and the Environment.

The results show that KALDEWEI steel enamel 3.5 mm contributes considerably more to sustainable building than acrylic or cast iron. Cast iron data comes from WECOBIS, the ecological building materials information system, and have been calculated on a commercially available enamelled cast iron bath with apron. The database does not provide any data concerning eutrophication potential so an estimate has been made in this respect.

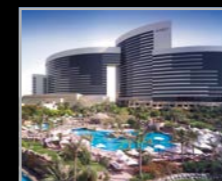

Close *at hand* WORLDWIDE.
QUALITY *made*
 in GERMANY

KALDEWEI frequently sets new benchmarks in its sector with visionary drive to make a creative difference, an exceptional sense of style, state-of-the-art manufacturing processes, and consistent focus on environmental issues. At home in the world, its international presence ensures that KALDEWEI will continue to meet the requirements of the global market.

Dive INTO *the* exclusive *world of* BATHING

The bathroom is increasingly becoming the expression of a new aesthetic, a distinct place of peace and sensory awareness. A place where the individual can make his dreams come true. And where he will find physical and mental well-being.

KALDEWEI has subdivided its range into the three segments AVANTGARDE (exclusive designs), AMBIENTE (modern designs) and ADVANTAGE (classic designs) for individual guidance.

■■■ ASYMMETRIC DUO - AVANTGARDE

■■■ PURO - AMBIENTE

■■■ CAYONO - ADVANTAGE

ASYMMETRIC DUO

Phoenix Design. A bath with a comfort zone: With its generously dimensioned storage area, the ASYMMETRIC DUO also acquires a spatial dimension. You can either sit on it or place bathroom accessories on it. It is also used for the individual positioning of controls. The contrast between the precise and clear style of the bath edge and the ergonomic and flowing design of the interior is appealing. In addition, the waste is designed so that it is flush with the bath floor – an elegant and harmonious solution.

Also available as a whirlpool.

ASYMMETRIC DUO (Model no. 742) in Alpine White.

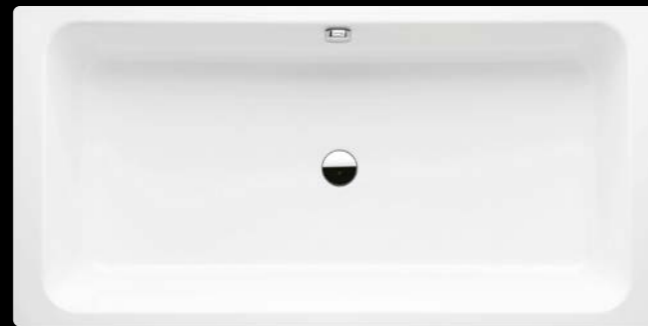

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS
ASYMMETRIC DUO	740	170	80	42	123	50	◊
	742	180	90	42	163	56	◊
	744	190	100	42	208	64	◊

BASSINO

Phoenix Design. The unpretentious design of the BASSINO shower pool with its straight lines conveys lightness whilst the generous space allows you to lie outstretched and to move freely in the water. With its spacious interior, BASSINO invites bathers to float weightlessly in the water. For an optimal floating effect, it comes with a cushion to be placed under the neck, supporting the head. Floating encourages quiet, even breathing and loosens up the muscles. A trance-like state of tranquillity is achieved, with an unparalleled deep relaxation effect.

Also available with panelling.
Bath board available as an option.

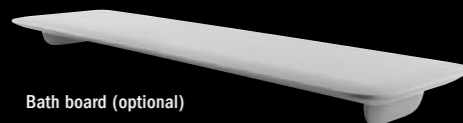

BASSINO (Model no. 144) in Alpine White.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS
BASSINO	144	200	100	35,5	240	70	-
	144-7	200	100	35,5	240		-

Cushion included in the accessory pack to enhance relaxed floating.

Bath board (optional)

* Water capacity less average 70-litre displacement

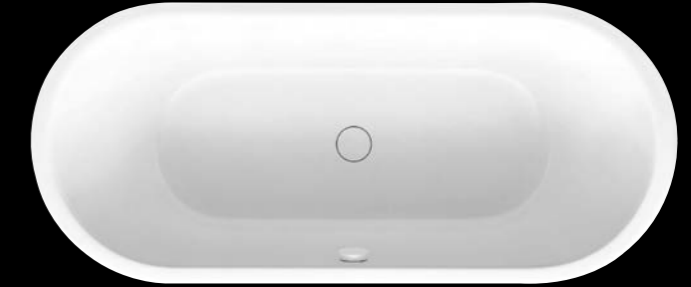

◊ One-sided drilling for grip possible (grip to be ordered separately at extracharge)

** Weight of the enamelled bath

■ Drilling for grip standard feature (grip to be ordered separately at extra charge)

CENTRO DUO

Sottsass Associati, Milan. Unpretentious and sophisticated elegance distinguish this range of baths. The oval shape, the special depth of 47 cm, two identical backrests and central waste ensure that you can bathe with a partner particularly conveniently and comfortably. An eye-catcher in any bathroom. The moulded panel, perfectly adapted to the shape of the bath, logically picks up on the design of this model and in so doing creates the option of experiencing design in the room with this freestanding bath.

CENTRO DUO OVAL (Model no. 128) in Alpine White.

Also available with freestanding panelling (Model no. 127-7 and 128-7).

Also available as a whirlpool.

MEGA DUO

Sottsass Associati, Milan. The MEGA DUO combines generosity with aesthetic individuality. It is as though these baths have been specifically created for bathing with a partner. Not only do the two identically shaped backrests and the central waste offer the highest levels of comfort for two people, but the wide armrests on both sides of the bath also provide extra luxury. The MEGA DUO OVAL, designed by Phoenix Design, is available with moulded panel on request. It combines generous sizes with aesthetic uniqueness. The panel manufactured from one piece harmoniously suits the shape of the bath and allows it to be freestanding.

MEGA DUO OVAL (Model no. 184) in Alpine White.

Also available with freestanding panelling (Model no. 184-7).

Also available as a whirlpool.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS
MEGA DUO OVAL	184	180	90	45	186	55	◇
	184-7	180	90	45	186	87	◇
MEGA DUO	180	180	90	45	186	60	◇
MEGA DUO 6	182	214	90	45	186	60	◇

ELLIPSO DUO

Phoenix Design. The square ELLIPSO DUO bath has strong geometric lines and the edge design is distinguished by a sophisticated, flowing shape. Its soft elliptical interior shape promises safety and comfort. The round shoulder area and precisely formed sides create a generous sense of space that invite you to take a relaxing bath alone or with a partner. The ELLIPSO DUO OVAL emphasises the feeling of luxury and extravagance even more in that its inner elliptical shape is reflected in its exterior too.

ELLIPSO DUO OVAL (Model no. 232) in Alpine White.

Also available with freestanding panelling (Model no. 232-7).

Also available as a whirlpool (not for baths with panelling).

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS
ELLIPSO DUO OVAL	232	190	100	45	214	55	◇

◇ One-sided drilling for grip possible (grip to be ordered separately at extracharge)

■ Drilling for grip standard feature (grip to be ordered separately at extra charge)

CONODUO

Sottsass Associati, Milan. The CONODUO unites independent design and excellent bathing comfort with a sense of peace and clarity. Architectonic and geometric elements merge to create a distinctive form. Other special features include the concealed waste with enamelled waste cover and an enamelled knob for outlet control.

CONODUO (Model no. 734) in Alpine White.

Also available with freestanding panelling (Model no. 737-7, 734-7 and 735-7).

Also available as a whirlpool.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS

◇ One-sided drilling for grip possible (grip to be ordered separately at extracharge)

■ Drilling for grip standard feature (grip to be ordered separately at extra charge)

DUO POOL

Sottsass Associati, Milan. Deep inside, curvy outside. At 50.5 cm depth, the DUO POOL is a bath for true indulgence. The pool's balanced dimensions offer optimum volume and freedom of movement. Thanks to its unusually compact length and generous width, the DUO POOL's spaciousness can be yours in virtually any size of bathroom.

Also available with a model specific panelling.

DESIGN PLUS

DUO POOL (Model no. 150) in Alpine White.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS
DUO POOL	150	150	100	50,5	240	54	◇

TWIN POOL

Phoenix Design. The TWIN POOL is distinguished by its combination of an interior ellipse, an angular exterior and an unmistakable style. Due to its compact exterior dimensions and its hexagonal shape, this pool offers a multitude of installation options. Yet in spite of its compact exterior shape, the TWIN POOL has an extremely generous interior. For bathing, for showering, or simply enjoying.

Also available as a whirlpool.

TWIN POOL (Model no. 660) in Alpine White.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS
TWIN POOL	660	170	100	47	150	48	-

KUSATSU POOL

Sottsass Associati, Milan. Relaxing energy comes from the 81 cm depth in the KUSATSU POOL that originates from Japanese bathing culture. Allowing you to submerge your entire upper body under the water. You sit as comfortably as you would in a large armchair allowing you to enjoy.

Also available as a whirlpool.

DESIGN PLUS

KUSATSU POOL	177	140	100	81	435	79	-

* Water capacity less average 70-litre displacement

** Weight of the enamelled bath

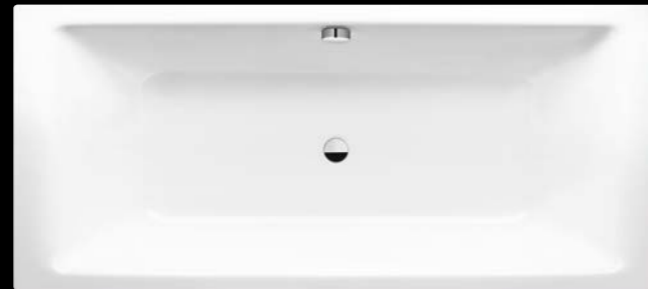

PURO

KALDEWEI Design. One of the basic principles of modern architecture and interior design is reducing all elements to their core. The clean and unpretentious design of PURO also follows this approach. As a one-person bath it fulfils the desire for a high-quality yet affordable design. The PURO has a particularly generous length for extraordinary high levels of bathing luxury.

The purist design of the PURO DUO follows the approach of reduction in the same way and is the logical continuation of the successful PURO series. It fulfills the desire for high-quality and timeless design for bathing for two. The inside of the PURO DUO is especially long to offer exceptional bathing comfort.

Also available as a whirlpool.

CAYONO

KALDEWEI Design. The CAYONO is deliberately designed in lines coordinated with the stylistic features of modern architecture. Straight lines, small radii and a consistent geometry signal clarity, harmony and stringency in an ever more complex and fast-paced world. By the same token, CAYONO is designed specifically for everyday use. Steep sides ensure a generously dimensioned bath interior – even with smaller sizes. The flat bath bottom allows for comfortable showering.

CAYONO (Model no. 749) in Alpine White.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS

SANILUX

Phoenix Design. The elegant SANILUX is a rectangular bath distinguished by its clear lines. The soft, flowing interior shape lends this one-person tub its character. With a rounded neck end providing carefree bathing pleasure.

SANILUX (Model no. 342) in Alpine White.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (liter*)	WEIGHT (kg**)	GRIPS

MINI

Phoenix Design. What this bath saves on length, it adds to the width, where you need it most: in the shoulder area. With its special shape, the MINI offers ample freedom of movement even in the smallest bathroom. And with its tapered shape, water consumption is considerably reduced.

MINI right (Model no. 834) in Alpine White.

SANIFORM

Phoenix Design. There are shapes that have simply become part of our lives. These include the classic one-person SANIFORM baths with waste positioned at the footend – baths that look good in every bathroom. No matter which model you decide on, you will always be comfortable with the particularly wide end and the ergonomic shape of the bath.

SANIFORM (Model no. 374) in Alpine White.

Also available with BAKO panelling system (Model 360-1, 361-1, 362-1, 363-1, 372-1, 373-1, 330, 331, 332, 335, 333 and 336).

Enjoy THE *exclusive world* of SHOWERING

Bathrooms today are designed with focus on elegance and generosity. KALDEWEI showers are considered to be state-of-the-art by many renowned designers and architects around the world.

KALDEWEI has subdivided its range into the three segments AVANTGARDE (exclusive designs), AMBIENTE (modern designs) and ADVANTAGE (classic designs) for individual guidance.

■ ■ ■ XETIS - AVANTGARDE

■ ■ ■ DUSCHPLAN - AMBIENTE

■ ■ ■ ZIRKON - ADVANTAGE

XETIS

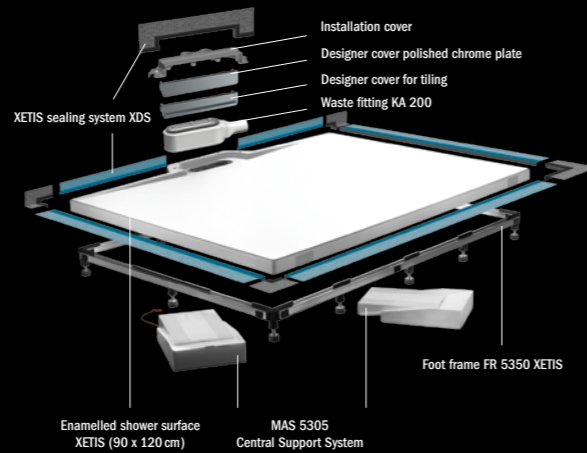

KALDEWEI Design. With XETIS, KALDEWEI is once again setting new standards in modern bathroom design. The waste has been discretely hidden behind the front wall so as not to interfere with the shower surface made of high-quality KALDEWEI steel enamel 3.5 mm. Available in 13 different sizes, XETIS integrates easily into any setting. All components of the integrated system have been developed by KALDEWEI and match each other perfectly. XETIS thus opens up new aesthetic possibilities for bathroom designers and becomes an absolute design highlight in the bathroom. With XETIS, KALDEWEI emphasises its role as a pioneer and style icon of bathroom culture. XETIS – system of visionary aesthetics.

XETIS SYSTEM SOLUTION

Sottsass Associati, Milan. The CONOFLAT has an extremely flat design without any edges to trip over. The enamelled waste cover fits seamlessly into the surface that is level with the floor. For new and elegant aesthetics, unlimited freedom of movement and optimal comfort when standing. The CONOFLAT, available in 33 dimensions, guarantees pleasure when showering.

The CONOFLAT does not only guarantee a pleasurable showering experience but because of its integrated design concept it is a perfect match for the CONODUO bath.

Product designed by Sottsass Associati

SUPERPLAN

KALDEWEI Design. Less is more. The SUPERPLAN is an impressive demonstration of this principle. With just 2.5 cm in depth, this enamelled shower surface is extremely shallow, making it ideal for installation at floor level. The elegant design turns your daily shower routine into an exclusive experience. With its variety of different dimensions (from 75 x 80 x 2.5 cm to 120 x 120 x 2.5 cm) the SUPERPLAN enamelled shower surface can be seamlessly integrated into any room situation.

SUPERPLAN (Model no. 390) in Alpine White.

SUPERPLAN PLUS

KALDEWEI Design. Revolutionising purism. The new enamelled floor-flush waste cover blends in harmoniously with the overall design of the SUPERPLAN PLUS and thus emphasises the purist nature of this particular enamelled shower surface. With an installed height of only 109 mm (including KALDEWEI special waste fitting KA 125) the SUPERPLAN PLUS is extremely flat and ideally suited for floor-flush installation. It is available in 12 different sizes and can be easily and harmoniously integrated into any room situation. Thanks to its exclusive design, the new SUPERPLAN PLUS makes taking a daily shower a new experience.

SUPERPLAN PLUS (Model no. 475) in Alpine White.

PIATTO

Phoenix Design. The PIATTO shower tray with its contemporary design creates an extremely individualistic bathroom style. Self-assured and imposing, this freestanding shower with its generous dimensions commands the space like a fascinating sculpture. In order to create the impression of a uniform round surface, the centrally located waste has been fitted with a cover in the same colour as the shower tray. The PIATTO comes as standard with easy-clean finish for effortless care. With an edge height of 6 cm, the shower tray looks like it is suspended above the ground. The imposing 150 cm diameter offers an exceptional amount of space for an exclusive showering experience.

PIATTO (Model no. 800-2) in Alpine White.

MODEL	MODEL NO.	DIAMETER (cm)	DEPTH (cm)
PIATTO	800-2	150	6

LADOPLAN

KALDEWEI Design. Sophisticated design and pure pleasure sum up this enamelled shower surface. The elegant waste cover positioned to the side is integrated harmoniously into the overall design.

LADOPLAN (Model no. 762) in Alpine White.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)
LADOPLAN	762	90	90	3.5
	764	80	100	3.5
	768	100	100	3.5

CORNEZZA

Phoenix Design. This pentagonal enamelled shower surface boasts a streamlined form reduced to the essentials. Featuring plenty of standing room for great freedom of movement and the option of floor-level installation for more elegance in the bathroom.

CORNEZZA (Model no. 670) in Alpine White.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)
CORNEZZA	670	90	90	2.5
	672	100	100	2.5
	671	90	90	6.5
	680	90	90	6.5
	673	100	100	6.5
	681	100	100	6.5

DUSCHPLAN/DUSCHPLAN XXL

Phoenix Design. The simplest things in life are often the most refreshing. Such as the DUSCHPLAN with its modern, timeless design and shower tray of only 6.5 cm deep. This classic amongst shower trays can be easily installed in every bathroom. And the apron brings more elegance to the bathroom. The DUSCHPLAN is available in a rectangular or square design and in various dimensions.

There are days when you need more space, and there are days when you want to shower with a partner. With the DUSCHPLAN XXL, both are possible, because its unusually generous size takes freedom of movement in the shower to a whole new dimension.

DUSCHPLAN (Model no. 545) in Alpine White.

	587	100	100	6.5
	584	80	80	13
	585	90	90	13

ZIRKON

Streamlined design and plenty of standing room, but without taking up too much space. There are lots of reasons why you should start your day with ZIRKON – the elegant quadrant shape, for example, that allows intelligent installation even in the smallest space. Also, not forgetting that this enamelled shower surface with its waste positioned at the side is available in many sizes and depths. Thanks to the large number of different dimensions the ZIRKON enamelled shower surface fits seamlessly into any space.

ZIRKON (Model no. 600) in Alpine White.

SANIDUSCH

Phoenix Design. With their modern, clean lines, the SANIDUSCH shower trays are bathroom classics. The SANIDUSCH is available not only with moulded apron and in different depths, but also in variable widths and lengths in either rectangular or square shapes. Because of the large range of different dimensions, the SANIDUSCH can be integrated seamlessly into any space.

SANIDUSCH is also available with side overflow (Depth 25 cm).

WATER, *air* and warmth
stimulate a *sensual* feeling of
total RELAXATION

VIVO TURBO AND VIVO TURBO PLUS

In today's fast-moving world, a relaxing whirlpool bath is a moment of inner harmony. You can forget your worries and experience the pure pleasure of water with all your senses. The whirl intensity in the VIVO TURBO ranges from a gentle stimulation of the sensory hairs to a powerful, large-surface massage of the skin, subcutaneous tissue and muscles. The special feature of the VIVO TURBO is the addition of air, which can be integrated into the system while maintaining its outstanding hygienic standards. The VIVO TURBO PLUS individually adjustable whirl programmes round up this complete whirlpool experience.

VIVO VITA

One of the best counterbalances to the stress of everyday life is weightless floating in your whirl bath. In the VIVO VITA whirl system, a pleasant sparkling air stream flows through the water. Pre-warmed air rises from the base in tiny air bubbles. At the same time, numerous bubbles stimulate the nerve endings in the skin, which feels like a pleasant full-body massage. This soft massage has a relaxing and soothing effect on your mind. In addition, the cleaning effect of the tiny air bubbles is significantly higher than that of a conventional bath. Whirl intensity can be smoothly adjusted using the bath control panel, from the soft stroke effect to a lasting effect of stimulating vibration and shaking massage.

VIVO AQUA ECO AND VIVO AQUA

The VIVO AQUA ECO is a perfect introduction into the KALDEWEI whirl world. In this whirl system, water massage jets are targeted directly at your body through four or six nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. The intensity of the addition of air can be smoothly adjusted by the turn knob. In the VIVO AQUA whirl system, water massage jets are targeted directly at your body through six or eight nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. Massage effect can be smoothly increased to receive a soft vibratory massage with relaxing depth effect.

VIVO VARIO ECO AND VIVO VARIO PLUS

The VIVO VARIO ECO system ideally unites the benefits of air and water. An especially quiet blower whirls tiny air bubbles up from the floor jets for a caressing massage all over the body. At the same time, water streams from paired side jets to deeply massage the skin and muscles. The whirl intensity can be infinitely adjusted using the bath control panel. In VIVO VARIO PLUS, the combined effect of floor and side jets is taken a step further. While bubbles rising from the floor jets create a tingling feeling we call the KALDEWEI champagne effect, the rotating side jets provide skin and muscles with a pleasant massage. Additional jets integrated into the foot reflex zone and lumbar region ensure a relaxing, whole-body massage. All functions in the VIVO VARIO PLUS can be operated using the convenient Touch Display. Four favourite settings can be stored in the Touch Display and called up at any time.

Side jet in VIVO TURBO and VIVO TURBO PLUS.

Floor jet with air in VIVO VITA and VIVO VARIO ECO.

Side jet with air mixture in VIVO AQUA ECO, VIVO AQUA and VIVO VARIO ECO.

Microjet with air mixture in VIVO VARIO PLUS.

Rotating side jet with air mixture in VIVO VARIO PLUS.

Floor jet with air and KALDEWEI champagne effect in VIVO VARIO PLUS.

With the VIVO TURBO equipment, the whirling intensity can be smoothly adjusted.

The VIVO TURBO PLUS comfort feature offers individual control of each jet in addition to the basic set of functions.

In the VIVO VITA the whirl operation and underwater light fitting can be controlled.

VIVO AQUA System regulates also the spectral light and an automatic disinfection system.

In the VIVO VARIO ECO, the whirling intensity of the side and floor jets can be smoothly adjusted.

In the VIVO VARIO PLUS, all whirl functions can be easily finger-controlled.

MORE COMFORT – MORE FREEDOM

Phoenix Design. The easy-to-use electronic COMFORT SELECT panel controls the main functions of a bath. The extremely flat chrome-look design fits into the edge of the bath and thus supports the harmonious overall appearance.

The innovative Piezo technology allows the following functions to be operated:

Temperature display and adjustment in increments of 0.5 degree Celsius, toggling between bath and shower (when the bath programme is selected, the outflow is closed automatically), activation of the outflow.

All components of this system solution are made by KALDEWEI.

THE BATH AUDIO SYSTEM

With the new SOUND WAVE, KALDEWEI offers an innovative bathroom audio system. The SOUND WAVE components, including the Bluetooth® receiver, are concealed in the bath. This acts as an excellent sound box and provides pleasant acoustics of the highest quality. SOUND WAVE can wirelessly play audio files from your smartphone, computer, tablet or any other Bluetooth® enabled device. Experience the extraordinary sound under water and escape from everyday life.

Bluetooth® radio technology enables wireless connections to compatible devices. Bluetooth® does not require line of sight between the SOUND WAVE and the other device. The devices must, however, be within ten metres of each other.

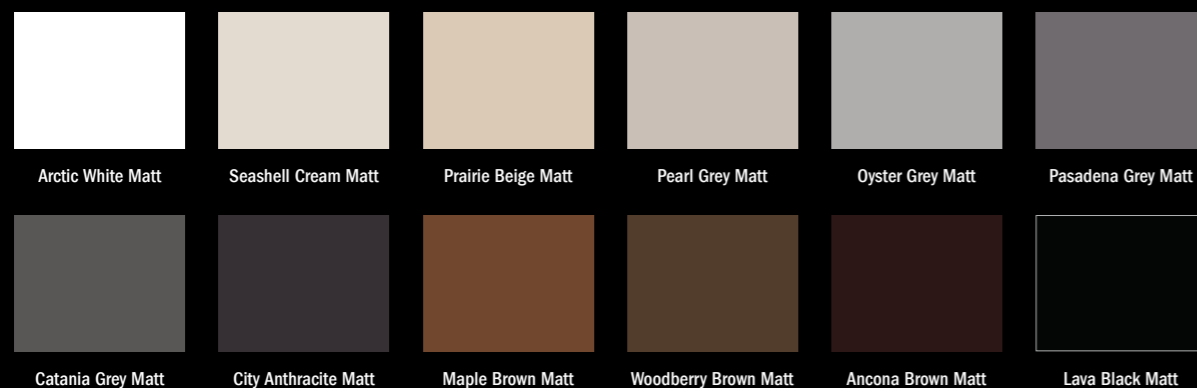

SENSUAL COLOURS

In an exceptionally aesthetic way, this collection of matt colours emphasises the special character of selected products and sets new standards in the areas of sensuality and value. Thus - to match the current tile trends, a selection of shower trays are available in the following colours:

Arctic White Matt, Seashell Cream Matt, Prairie Beige Matt, Pearl Grey Matt, Oyster Grey Matt, Pasadena Grey Matt, Catania Grey Matt, City Anthracite Matt, Maple Brown Matt, Woodberry Brown Matt, Ancona Brown Matt, Lava Black Matt.

A selection of baths are available in the following colours: Arctic White Matt, Seashell Cream Matt, Oyster Grey Matt, City Anthracite Matt and Lava Black Matt.

FREEDOM OF SCOPE

To complete the design, our basic range of bathroom colours, available for all products, offers almost unlimited freedom of design and many combination options.

ALMOST INVISIBLE –
EXTRA SAFE

KALDEWEI steel enamel 3.5 mm is at the core of the KALDEWEI brand. As a pioneer in the industry, KALDEWEI is continually enhancing this material. Above all, the focus is on anti-slip surface finishings.

In a creative environment that responds to users' needs, KALDEWEI has opened a new chapter in surface finishing through the creation of the new KALDEWEI SECURE PLUS surface. The KALDEWEI SECURE PLUS enamel which covers the entire surface of the product, is virtually invisible, but slip-resistant nonetheless. KALDEWEI SECURE PLUS fulfils the requirements of quality class B according to DIN 51097 and quality class R 10 according to DIN 51130. The surface itself has a subtle feel to it and comes in the refined look of the Coordinated Colours Collection.

TESTED AND
CERTIFIED SAFETY

The anti-slip and full anti-slip enamel surfaces designed by KALDEWEI in its own laboratories are hardly visible and provide more safety when showering or taking a bath. They consist of a quartz sand mixture which is permanently burnt into the KALDEWEI steel enamel 3.5 mm. Due to a flatter matrix of the anti-slip nodules, the new (full) anti-slip system is even more friendly to your skin whilst incorporating the same anti-slip characteristics. It is also impressive with its excellent care properties.

Those who opt for KALDEWEI baths and shower trays place great emphasis on aesthetics and design. The anti-slip and full anti-slip enamel surfaces are perfectly matched to the shape of the baths and shower trays. Thanks to the new recipe, optimal colour matching is achieved. For the perfect look.

It is a matter of course for KALDEWEI to have the new anti-slip and full anti-slip enamel surfaces comprehensively and objectively tested to ensure greater safety in the bathroom for our customers. The Rhineland TÜV organisation (German Technical Inspection Association) has certified KALDEWEI's anti-slip and full anti-slip systems as having anti-slip properties compliant with Quality Class B for barefoot wet areas (DIN 51097) and Quality Class R 10 for anti-slip characteristics in work spaces and working areas with an increased slip risk (DIN 51130). The SUPERPLAN, model 399, with full anti-slip complies with DIN-barrier-free 18025-2. The CONOFLAT, model 790, with full anti-slip, complies with DIN-barrier-free 18025-2 and 18040-2.

KALDEWEI is a partner company of the German Society of Engineering for the Elderly (GGT). In a user test carried out by GGT, the models SUPERPLAN 120 x 120 cm and CONOFLAT 120 x 120 cm achieved the rating "Good".

SUPERPLAN PLUS with KALDEWEI SECURE PLUS.

SUPERPLAN PLUS with full anti-slip enamel.

DECORATIVE AND CREATIVE ACCENTS IN THE BATHROOM

Design enthusiasts looking for individual creative results, will value the decorative lily, developed by the Phoenix Design Studio. Whether it's combined with a wooden or stone floor, with natural stone or simple tile walls, this elegant, understated decoration brings a whisper of exoticism to the bathroom. An unforgettable design element for all CONOFLAT, LADOPLAN, SUPERPLAN and SUPERPLAN XXL enamelled shower surfaces and now for various KALDEWEI bath models. The decoration is available both on white and black enamel.

And to experience the sheen of pure gold in the bath, the super-flat CONOFLAT (100 x 100 cm) can be supplied on request decorated in 24-carat gold, making CONOFLAT an entirely individual design object.

The discreet lily pattern brings a hint of the exotic to every bathroom.

CONOFLAT (Model no. 786) with gold ornamentation.

SUPERPLAN (Model no. 407) with "lily" decoration.

NO CHANCE FOR DIRT AND BACTERIA

With the optional easy-clean finish from KALDEWEI, water simply runs off the bath or shower tray, taking almost all dirt and lime particles with it. Even dried-on watermarks and limescale residue can be removed easily. And because stringent cleaners are not needed – just a soft, damp cloth, the easy-clean finish has a positive effect on the environment, too.

The easy-clean finish is a surface finish that is permanently burnt onto the KALDEWEI steel enamel 3.5 mm. It ensures unparalleled durability and long life. Even when the surface is wiped 1-2 times a day, the anti-stick properties remain unchanged 30 years later. The easy-clean finish is available for all KALDEWEI baths and shower trays and comes as standard with whirlpool baths.

MOOD LIGHTING

Nothing is more effective for creating an individual atmosphere in the bathroom than light. Used during a relaxing bath, coloured light produces a soothing ambience that enhances our feeling of well being. Light transforms the bathroom into an inviting oasis, with colour impulses stimulating the metabolism and supplying our cells with new energy while body and soul unwind. Different lighting constellations can be chosen to create the desired mood.

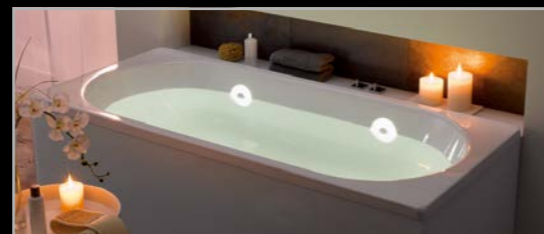

THE LIGHTING SET FOR BATHS

The KALDEWEI lighting set for baths enhances the bathing experience through mood-making light effects. White light and spectral light spots are available. The set comprises an LED spot, a control unit with power supply cable and a button in the bath for operating the spot.

INDIRECT LIGHTING FOR BATHS

With indirect lighting for baths, KALDEWEI offers an exclusive lighting concept for those who demand the best in design. Four indirect light sources are sunk in the side of the bath, flush with the surface, creating a subtle lighting mood that is all the more effective with its modesty. Indirect lighting is available for all CENTRO DUO and CONODUO models, but not for baths with whirl system.

SAFELY IN, SAFELY OUT

If you wish to combine aesthetics with a high level of safety, you can have your bath fitted with a KALDEWEI grip. With the many different grip combinations available for your KALDEWEI bath, you're sure to find just the right one to fit your specific requirement.

The KALDEWEI Pool grip makes getting in and out of the bath more comfortable and safer than ever before. The high design ensures a firm hold without having to bend down to the edge of the bath.

COMFORT-LEVEL AND COMFORT-LEVEL PLUS

Enjoying a relaxing bath depends not only on how comfortably you can recline, but also how deeply you can submerge your body in the water. With the COMFORT-LEVEL and COMFORT-LEVEL PLUS with integrated filling function, the water depth can be increased by up to 50 mm while bathing to suit personal preferences. All it takes is one turn of the lever for maximum bathing pleasure.

WATERFALL BATH INLET WITH AND WITHOUT OVERFLOW FUNCTION

Something for those who love bathing – the waterfall bath inlet by KALDEWEI offers a completely new kind of bathing experience. The inlet, which was designed by Phoenix Design, is integrated harmoniously in the side of the bath. Activating the water fill automatically opens the screen, and an even waterfall pours into the bath. The waterfall inlet with additional overflow function creates a quiet, pleasant atmosphere in the bathroom – with no irritating elements at all on the inside of the bath. The contemporary “click-clack” system is a modern waste concept i.e. the water waste on the bottom of the bath opens and closes at a gentle touch of the valve ball. A wonderfully elegant solution that meets highest design standards and appeals in form and function. The combination waterfall inlet and “click-clack” is unique.

„click-clack“ closed.

RELAX LOUNGER

The KALDEWEI relax lounge instantly turns a designer bath into a small wellness oasis. Relaxing on the fine fabric, you'll feel as if you're lying on the deck of an elegant yacht. In addition to its design qualities, the relax lounge offers a high level of flexibility. It consists of six elements, two of which are permanently connected to each other making it possible to use the relax lounge as three separate boards with varying applications: as a shelf while lying in the bath, or as a mattress to recline on. If the three separate boards rest on the bath together, they can be connected to create a large stable slip-resistant surface that sits firmly on the bath. Another connection between the relax lounge and bath can be made by attaching fastening buttons. In this way, baths already installed can be retrofitted with the relax lounge. The weight capacity of the relax lounge is 130 kg and is supplied with a special cushion.

Cushion size: 40 x 23 x 9 cm.

Relax lounge, sizes: 170 x 75 cm, 180 x 80 cm, 190 x 90 cm, 200 x 100 cm.

RACK to store the relax lounge and cushion.

The relax lounge is available in the following colours:

Anthracite

Beige

Crimson

Chocolate

MULTIFUNCTIONAL CUSHION

What could be nicer after an exhausting day than to lie back, switch off and simply let all your cares drift away? With KALDEWEI's multifunctional cushion, this relaxing pleasure becomes reality. The cushions can be used in three ways. Positioned as a footrest or under the thighs, they prevent the body from sliding downwards in larger baths. Positioned as a neck rest they provide a comfortable support for your head and neck. Placed on the sides they act as an armrest.

BATH CUSHION

The KALDEWEI bath cushion brings another level of comfort to the bath. Its flexibility and soft materials adapt perfectly to any shape of neck and bathtub. Its volume can be regulated with an air valve – similar to an air mattress. The skin-friendly fabric cover feels delightfully soft and is machine washable. A generous 50 x 30 cm, the cushion also supports the shoulder area and allows a variety of head positions.
