

ExcludaTech room dim-out roller blinds by Kaydee

Kaydee – the strength behind the name

Consider the value you get from sourcing your commercial blinds from Kaydee. We have built our reputation on decades of specialisation in your market. So, quite simply, you get excellence as standard.

- **Competitive prices**

The very best prices combined with vast choice are just two reasons why Kaydee brings you the best solution – within your budget. Guaranteed.

- **Why is Kaydee unique?**

Our independence means we bring you only the best from multiple, worldwide manufacturers. You won't find a better choice or a larger choice.

- **We are answerable**

Unlike distributors, Kaydee supports your project from specification to installation. We are answerable to this commitment – so you get just the solution that you need.

- **On time every time**

Our commitment to you is that we meet our contractual deadlines. On time, every time. Isn't that good for your peace of mind?

- **Total control**

From start to finish, Kaydee will nurture your project with pride and professionalism. Our project management skills give you total confidence.

- **Excellent guarantees**

All our commercial blinds come with an appropriate warranty ranging from 12 months to 25 years. Our commitment to quality, is your guarantee.

- **Experience counts**

There is no substitute for Kaydee experience – twenty-five years' innovation, exclusivity and customer care. For you, that means no surprises – you get exactly what you asked for.

- **Safe, too**

Safe installation, safe operation. Kaydee staff are experts in health and safety. Their training and experience helps reduce your risks.

- **Easy on the eye**

Cosmetically or architecturally – blinds have to look right. Kaydee's vision in colour, texture and style will make the right visual statement for you.

ExcludaTech room dim-out roller blinds by Kaydee

Kaydee's ExcludaTech range brings you a high quality and fully proven range of room dim-out blinds, designed with the education market very much in mind - but also for use in other presentation or training environments where the virtual total exclusion of daylight is important.

- **Large blinds – no problem**

Available in a range of widths from 400mm to 5000mm, and with drops of up to 7000mm, you can be sure that the ExcludaTech system can be installed in both new build and existing buildings with the minimum of fuss. It is designed for both side and face fixing, and can be installed with equal effectiveness within or outside the window openings.

- **Completely sealed**

Black-out fabric runs from a top roller, housed within an aluminium head box. This material runs in and is retained at the side within special matching aluminium side channels, where it remains in contact with double brushes to prevent light ingress. A further compressible brush can be located below the bottom rail, to prevent light penetration at the base.

- **Heat reflective**

ExcludaTech blinds are supplied as standard with PVC coated polyester fabric, in a standard range of colours. Also available are PVC-coated glass fibre fabrics in a range of co-ordinating colours. All are flame retardant to the same high standards.

- **Time-tested controls**

You can choose from either manual or electric controls – systems that have been thoroughly time-tested to give the utmost reliability under arduous operating conditions. Manual control is by means of fixed or detachable crank rod and self-braking gearbox, or by either metal or nylon bead chain.

ExcludaTech room dim-out roller blinds by Kaydee

The Benefits

Kaydee ExcludaTech room dim-out blinds – the benefits

- Effective room dimout** Kaydee ExcludaTech blinds provide a very high level of room dimout. The specially woven and coated black-out fabric is ideal for any teaching, training, presentation or other work that needs an effectively darkened work environment.
- Special light-sealing** The fabric is always retained at either side within specially designed side channels, complete with double brushes to reduce light penetration.
- Robust and fully proven** With the fabric safely contained within the head box when not in use, the whole system is robustly engineered and fully proven in demanding education and commercial environments and requires minimum maintenance.
- Colour co-ordinated** The aluminium head box and side rails are treated with attractive powder-coated finishes – available in a range of RAL colours. Fabrics, too, are available in various colourways – so you can co-ordinate décor.
- Chain, crank or electric control** Select from metal chain, or a fixed or detachable manual crank control system, for smooth operation or advanced integral electrical tubular motor – giving raise or lower at the flick of a switch.
- Easily installed** The system can be installed without difficulty in both new build and retrofit contracts. Head boxes can be located either inside or outside window openings and side channels are designed for both side and face fixing.
- And fully Kaydee backed** As you would expect, Kaydee backs its ExcludaTech blind hardware with a full three year fit-for-use guarantee.

ExcludaTech room dim-out roller blinds by Kaydee – specification guides
