# AMF RECYCLING PROGRAMME

A sensible and sustainable use of resources is more important than ever. At AMF we aim to be a leader in sustainability in accordance our motto „more scope for innovation“.

In order to promote sustainable practices and create a closed material supply loop, AMF are able to recycle ceiling tiles including damaged, used and off cut material. By doing this we can reduce the amount of material sent to landfill and preserve our natural resources. Because of our production process and to maintain quality, a few points have to take into consideration when considering recycling:

## THE REQUIREMENTS FOR RECYCLING

The Following ceiling tiles can take part in the AMF recycling program:

- Off cut's from newly installed AMF Thermatex ceiling tiles.
- Used tiles produced after 1st January 1997, due to our ceilings being certified by the RAL-seal of quality we can only recycle mineral ceiling tiles produced after this date
  - THERMATEX (except Thermaclean, please contact us separately)
  - THERMATEX Acoustic Range (fleece-covered)
  - ECOMIN
  - KOMBIMETALL (ceiling tile and metal has to be separated)

For the tiles to be recycled the following requirements have to be met:

- For efficient transportation there is a minimum quantity of 2,000 m<sup>2</sup>.
- The ceiling tiles have to be dry and clean, we cannot use dirty or contaminated material
- Any ceiling tile that has been repainted cannot be recycled.
- Ceiling types have to separated (no contamination with metal components or other materials)
- Packed on a pallet with a maximum height of 2 metres, providing the pallet can be used for new tiles
- The building site must be located in France or Great Britain

If required the packaging can also be recycled by AMF. Please contact your local sales office for further information.

**If you have any further questions, please contact your local sales office**

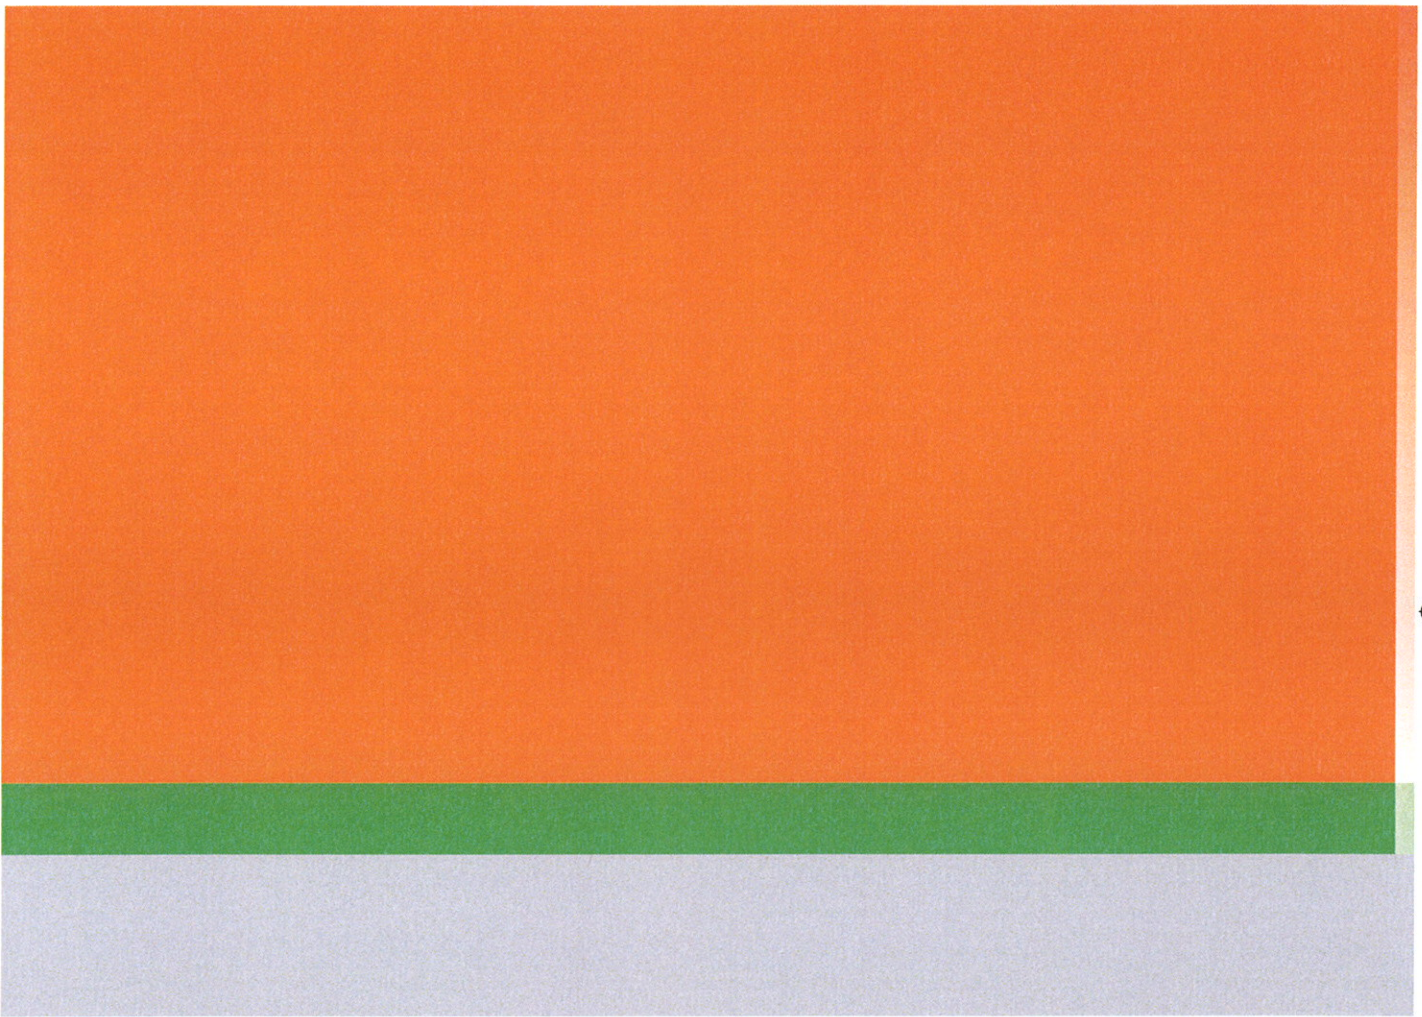

With the AMF recycling program, together we can work to be more sustainable.  
The recycling process is divided in 4 simple steps. But please contact us if you have got any questions.

## THE PROCESS

- 1** When you have tiles to be recycled please contact your local sales office with the following information:
  - name and address of the project as well as the contact person at the building site.
  - product type, production date (printed on the back of tiles) and the amount of tiles to be recycled in square metres.
  - date on which the tiles need to be collected.
- 2** A viewing appointment for an AMF employee will be arranged to inspect the tiles to be recycled.
- 3** Please arrange together with your ceilings distributor the collection and transport of the tiles from the site to the AMF factory in Grafenau.  
Please provide the expected delivery date and the lorry license number.
- 4** When the material arrives in our factory in Grafenau, it will be quality checked.  
If the tiles meet the quality standards, they will be recycled, you will then receive a recycling certificate as proof of the correct re-use.

**If you have any further questions, please contact your local sales office**
