

ELE400141 Fire Station

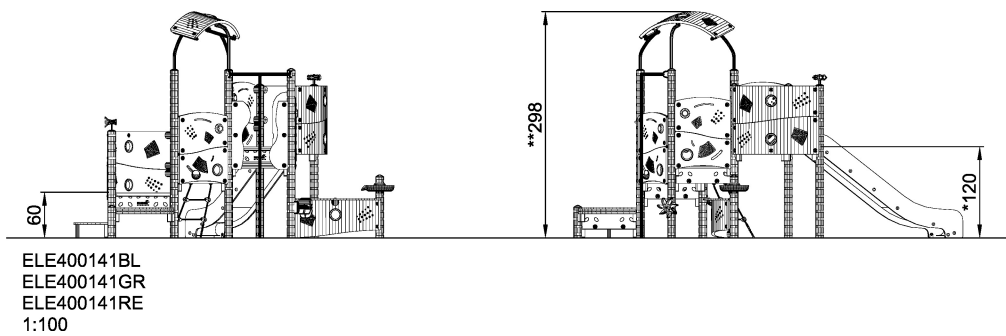

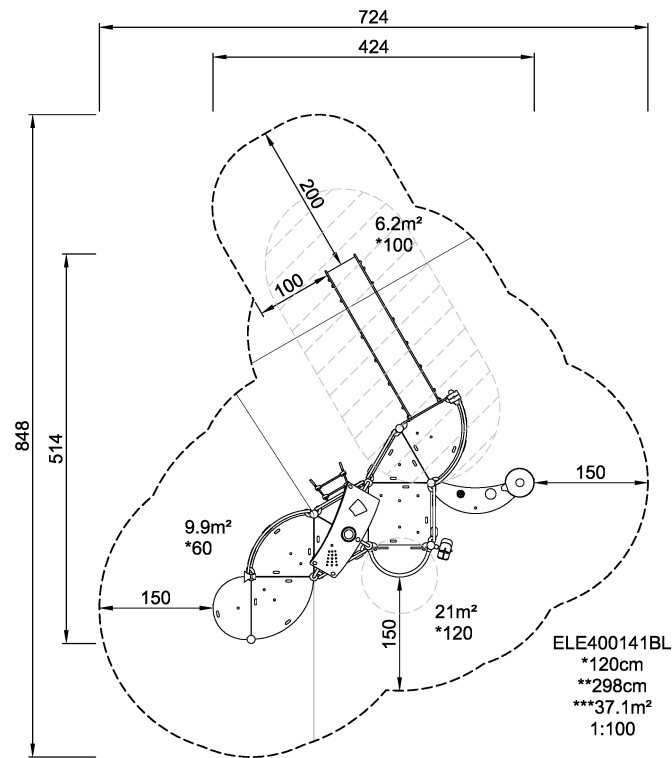

The Fire Station is a rich combination of play possibilities. Not only can the child access the structure by steps or net, there is also two very different ways to slide down. The steel slide presents the fast, and enclosed way, whereas the fireman's pole is like a step into the empty space. The panels offer peepholes and interesting patterns to explore. Challenging spaces framed by the slide and counter invite children to define their own rooms under the Fire Station.

Product Line	Multi play structures
Category	ELEMENTS™
Age group	2 - 6
Max. fall height (CM)	120
Total height (CM)	298
Safety Zone	37.1 m2
