

# MSC6407 Home/Rescue

The Home/Rescue structure is a house on one side and a fire truck on the other. The two themes are inviting places for children to play that offer a variety of activities. The climbing wall and easy access invite climbers to choose their own way to reach the top. The climbing wall challenges children's problem solving abilities and is suitable for different skill levels - the left side is an easier route than the right. There is a fun slide leaving from the house and on the other side firefighters can quickly slide down the curly climber descending from the fire truck. Children will be delighted to find two hidden spaces underneath the structure, where they can move in with either a family or a crew of firefighters. The play panel, look outs and play switchers invite the children to experiment. The bench can be used as a counter for constructive play, a footrest for climbing or as a place to just sit.

<b>Product Line</b>	Themed Play
<b>Category</b>	STORY MAKERS™
<b>Age group</b>	2 - 6
<b>Max. fall height (CM)</b>	237
<b>Total height (CM)</b>	285
<b>Safety Zone</b>	37.2 m <sup>2</sup>
