# Multi Goal, 12 meter

Encourage ball games without having space for an entire pitch. With a multi goal, you define where the game should be carried out and create a brilliant spot for one-directional play. One-direction does not limit use, many can still play both together and against each other. The 12-meter-wide multi goal wall keeps the ball to one side, and with the last panel being angled, it also adds a natural side parameter. It comes standard as all steel with a 3-meter-wide goal ideal for basketball, football, futsal, and handball.

The design can be configured with following options available:

- Panel type (steel, coloured plates, wooden look)
- Target shooting play panels
- Closed main goal (steel or net)
- Colours depending on material

**Product Line** Multi Use Games Area

**Category** Goal Walls & Panna

**Age group** 3+

**SUR-
