

FRE601401

Multi Goal, 3 meter

Encourage ball games without having space for an entire pitch. With a multi goal, you define where the game should be carried out and create a brilliant spot for one directional play. One-direction does not limit use, many can still play both together and against each other. The 3-meter-wide Multi Goal comes standard as all steel with open sides ideal for basketball, football, futsal, and handball.

The design can be configured with following options available:

- Top goal panel type (steel, coloured plates, wooden look)
- Closed main goal (steel or net)
- Different colours depending on material
