

PCM112101

Play Tower with Banister Bars, Basic

KOMPAN
Let's play

This sturdy play unit offers a nice meeting place and varieties of motor skill fun: different sorts of climbing and gliding and somersaulting. Under the platform of the biggest tower, a nice desk offers a possibility of a break. An inclined climbing net takes the player up to a level from which the fireman's pole offers a fast ride back to the ground. Alternatively, the child can climb to the next platform and go down the bannister bars. This platform and the banister bars can also be entered from the climbing wall. On the side of the unit, two somersault bars offer ample opportunity for doing tricks or just being seated, having a chat. Apart from being great fun, climbing, gliding and doing somersaults also train the muscles and the motor skills.
