

# M582 Sandworks

The Sandworks radiates enjoyment and fun. A cheerful and attractive sculpture in bright colours, this play item encourages children to explore the wealth of detailed and manipulative play items - what's this, and what's that?! There are many hours of fun and learning in this play sculpture from KOMPAN. The Sandworks also features less obvious play attractions. Children can play with sand at different levels; they can form, pour or scoop the sand up again by way of two cranes. This game can include many children, making the old adage of "the more the merrier" appear true of the Sandworks. Therefore, it is hardly surprising that the Sandworks is always surrounded by a hive of activity.
