Supercell

EN The Supercell family are landscape elements with a light and dynamic geometry. A set of urban furniture with no edges at all. The series is presented with the S and L seats and the big size model the Megacell. There is also the Supercell Planter version, a public concrete planter with a design stimulates the creation of green area configurations.

Supercell

EN - Concrete furniture family colored in mass, with exposed aggregate surface and waterproof finish.

Registered and protected design by the Intellectual Property Office of the European Union.

Supercell S: 90 x 60 x 43, 400kg.
Supercell Planter: 140 x 110 x 43, 80L, 600kg.
Supercell L: 140 x 110 x 43, 800kg.
Megacell: 285 x 180 x 43, 3.000kg.

Material:
High quality concrete. Cement: CEM I 52,5. Aggregates: Aggregates of marble, granite, with selected granulometry. Water: drinking water, which does not contain impurities or suspended organic components which could affect the quality of concrete. With guarantees and CE certificate, UNE-EN 12620 and ISO 9001:2015.

Concrete finish:
Exposed aggregate finish surface with waterproof and anti graffiti treatment. Colors available according to color chart.

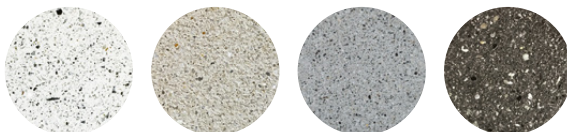

Optional paint finish with epoxy-polyurethane UV resistant (only for pieces weighing less than 1.000kg). Available in any RAL color.

Installation:
The installation consists of supporting it on the ground. It requires a location with an ad hoc foundation. In order to fix it, it has bushings at the base to be able to thread M12 bolts (M16 for Megacell model) inserted into holes bored into the ground, filled with epoxy resin, quick-dry cement or similar. Bolts are not included if not specified in the order. Handling with long polyester slings.

Maintenance:
Maintenance is not required. The waterproof and anti graffiti coating also prevents dirt adhering to the surface. To clean the surface and remove graffiti type paintings, use high-pressure hot water. For this purpose, concrete admits the use of any type of industrial spraying device.

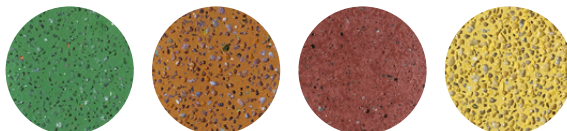

Packaging:
Supercell S: one piece per pallet, 120 x 80 x 43, 400kg.
Supercell Planter: one piece per pallet, 150 x 120 x 43, 600kg.
Supercell L: one piece per pallet, 150 x 120 x 43, 800kg.
Megacell: one piece per pallet, 285 x 180 x 43, 3.000kg.
