

PROGRAM CAP

ART. CAP.445.0000 [CAP.445.0000]

Lift-up foldaway safety support. Article in extruded aluminium elements and die-cast casing for the swivel mechanism and support self-balancing mechanism. The safety support has a watertight casing. A push pad releases the support, swinging it outwards when gently pressed. The premium quality surface coating offers excellent durability and colour fastness. Conform to European standards for coatings for architectural purposes (EN 12206, Qualicoat class 1e GSB). Handrail for WC.

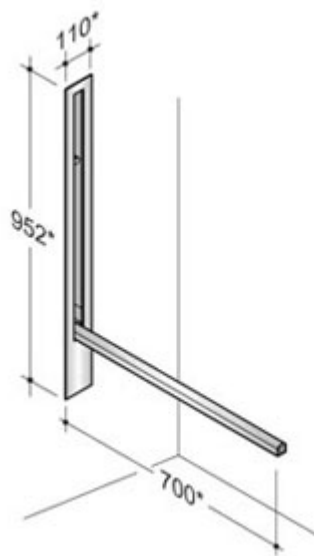

IMPORTANT: the lift-up foldaway safety support can only be installed on specific wall fixture.

Plate length 952* mm

Plate width 110* mm
