

Access Panels Operation and Maintenance Sheet

A: Maintenance – WD40 lubricant on an annual inspection should be applied to locks and hinges.

B: Cleaning – A non-abrasive detergent can be used on painted surfaces, once dry, polish or buff with a soft lint free cloth.

C: Finished Surfaces: Polyester Powder Coated to both door and frame.

D: Damage or Wear – Under normal everyday use, all components, ie hinges, will not wear. Any damaged components should be replaced by the manufacturer.

E: Replacement – Any modifications or repairs to all panels should be returned to the manufacturer.

F: Life Expectancy – All panels will have a general life expectancy which will be in line with the building they are installed in.
