

Griddor Data Sheet

Griddor Data Sheet

Description

This access panel is suitable for use within a lay in grid ceiling. It has a 50mm deep frame and can be used in either a 15mm or 24mm grid. This can also be supplied to suit either a flat or tegular tile (please advise at the time of ordering). It is a non-fire rated product and has a pivot hinge and a budget lock as standard. The ceiling tiles are to be retro fitted by others on site.

Materials

Our range of panels are made from 1.2mm Zintec steel for maximum rigidity, other materials are available on request such as stainless steel. As standard our panels are finished in a polyester powder coating - White RAL 9010. For other colours contact our office.

Dimensions

These are designed to fit inside the grid.

Locking Options

This panel is supplied with a budget lock as standard, for alternative locking options please contact the office.
