

## Introduction

# GL150F/GL130F/ GL450F

## Fire Rated Access Panels

The Access Panel provides a cost effective solution for easy access to hidden building services behind a ceiling or wall, when a fire rated access panel is required.

## Description

The panels are predominantly used in household situations for access to:-

- Electrical Wiring Systems
- Fuse Boxes / Switches
- Controls / Connection Links
- Valves / Stopcocks / Plumbing

Each fire rated access panel includes a 'Square Lock & Key' to restrict unwanted access and is fire rated for up to 1 hour. The door is finished in powder coated white and can be over painted to blend with the surrounding surface.

The fire rated panel is a high quality, robust solution suitable for everyday use with all the discrete advantages required of an access panel.

The GL151F/GL131F/GL451F fire rated doors come complete with a Euro cylinder key lock for additional security.

## Features

- The mechanical fixing makes it simple and quick to install.
- Product supplied finished, therefore no requirement to decorate.
- Overall cost effective solution for accessing hidden building services.

## Specifications
