

Tile Access Panel

Code: **GLTAP-500**

Description

The Manthorpe Tile Access Panel is a versatile kit of parts that can be quickly assembled to form a cloaked access panel within a tiled wall. The panel is completely flexible and can be used with most size or thickness of tiles to form an access panel of any varying dimensions.

**Variable Dimensions: Minimum 150mm x 150mm
Maximum 465mm x 465mm**

The Access Panel can be installed into all existing wall panel materials whether it is plasterboard or tile backer board of any thickness, the finished Manthorpe Tile Access Panel will always fit flush with the surrounding tiles.

The Access Panel is supplied ready, with a 6mm thick fibre cement tile backer board and a full set of fitting instructions. The fibre cement board is an ideal backing board for receiving all types of tile adhesive or grout with minimal warp after tiling.

Once complete the Manthorpe Tile Access panel can be accessed effortlessly by pressing on the magnetic touch catches and then fully releasing the panel from its hinges.

Safety

Tile Backing Board	To limit respirable silica exposure, when handling or cutting backing board wear a dust mask or respirator (eg P2) in accordance with applicable government regulations.
