

Top Clean LIGHT Ribbed Carpet

This Top Clean version is particularly suitable for installation without mat frames because the mats have approximately the height of floor tiles. Top Clean LIGHT has been designed for use indoors and in covered outdoor areas with normal foot traffic. The robust ribbed carpet has a high cleaning power. Top Clean LIGHT features extra sound insulation due to the complete solid rubber profile underside. It has permanent, lifelong dimensions, is rollable and easy to clean. This version is only provided in rectangular shape; no special shapes are available.

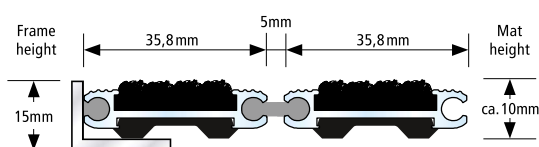

| | |
|-------------------------------------|--|
| Aluminium Profile | Warp resistant aluminium profile (alloy EN AW 6060) for fully supported installation. |
| Upper | Ribbed carpet: UV-resistant, heavy-duty polypropylene, slip resistance properties R 11 conforming to DIN 51130 (German Industrial Standard), fire-resistant Cfl-s1 conforming to DIN EN 13501-1 (German Industrial Standard). |
| Underside | Base of the mat is mechanically fitted with rubber inserts for slip resistance and extreme noise reduction. |
| Connection | Flexible, pierced connection profile. |
| Colours Compensation Profile | Black or grey. |
| Profile Spacing | Top Clean LIGHT 10 mm: 5 mm. |
| Dimensions | When laying the mat inside of an existing mat frame, the front to back dimension is reached using a compensation profile (grey or black) when needed. When laying freely, the walking direction is an approximate measure (a little smaller or larger). Only rectangular mats are available for Top Clean LIGHT; no gaps, curves or diagonal cuttings. |
| Profile Colours | Natural aluminium. Profile can be supplied powder-coated to any RAL colour (for an extra charge). |
