

design

A simple thing done very well; the naughtone mega ped table is pared down to the minimum soft square shaped base and stem. Mega ped caters for the larger table functions without a complex or bulky base (up to 2000mm diameter!) Use the mega ped table wherever you need a product that performs so well you don't even notice it.

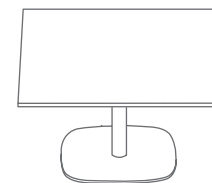

technical

Megaped is manufactured from solid aluminium and mild steel. Finished with a hard wearing polyester powder coat finish. The stem, base and table top are supplied unassembled and bolt together easily with very few fixings. The various table top options have their own unique characteristics and can be fully tailored to suit any requirement. *All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

Mega ped table designed by naughtone

general manufacture description

The Mega ped table is available in a range of sizes and finishes, for the purpose of this document we have a specific example from the range:

Mega ped table
PED-1200-DIA (MF MDF top)

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

The Mega ped base is supplied unassembled in 3 parts for bolt together construction. The base, top plate and stem are manufactured from solid aluminium. (the stem is a thick walled tube) The surface of the base is finished with a polyester powder coat.

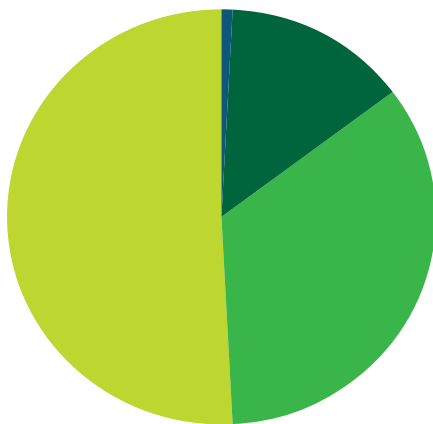

The stem, base and table top are supplied unassembled and bolt together easily with very few fixings.

The table top is made from MF MDF. The raw MDF edge is polished and finished with a hard wearing spray lacquer.

facts

- 100% FSC certified timber
- naughtone is FISP and ISO14001 certified
- 51.9kg Total weight
- 65.2% Recyclable (frame & fixings)
- 34.8% Compostable (top)
- 34.35% Recycled content (frame, fixings & top)
- 34.8% Reusable content
- 99.55% Recycled & Recyclable content

contents

- Frame (aluminium) - 51%
- Top (MF MDF) - 34.8%
- Frame (mild steel) - 14%
- Fixings (mild steel) - < 1%
