trace table

design

Sold by the likes of MOMA in New York, the trace table range is simply a modern classic that speaks for itself. Suffice to say, the immaculate hand made steel frame and repetition of shapes make trace an exquisitely balanced form. Historically seen with a clear glass top, trace works equally well with opulent or contrasting materials recessed flush into the frame. Use trace in the standard sizes in any interior or talk to us about a bespoke size to suit your specific requirements.

technical

Trace is handmade from cold drawn mild steel. The selection of steel is ideal for achieving sharp lines and a smooth finish. The finished single piece frame has a surface finish of hard wearing polyester powder coat, while the various table top options have their own unique characteristics and can be fully tailored for a client's needs. *All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

Trace table designed by JntheDetail

general manufacture description

The Trace table is available in a range of sizes and finishes, for the purpose of this document we have a specific example from the range:

Trace coffee table
TRA-CT (veneer top)

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

Trace is handmade from cold drawn mild steel bar, then weld jointed together and hand polished to a smooth surface. The finished single piece frame is finished with a zinc primed polyester powder coat.

The table top is CNC cut from oak veneered MDF. The raw MDF edge is polished and finished with a hard wearing spray lacquer.

facts

- 100% FSC certified timber
- naughtone is FISP and ISO14001 certified
- 16.3kg Total weight
- 55.2% Recyclable (frame)
- 44.8% Compostable (top)
- 44.8% Recycled content (frame & top)
- 44.8% Reusable content
- 100% Recycled & Recyclable content

contents

Frame (mild steel) - 55.2%

Top (MDF and oak veneer) - 44.8%
