

## Specification Sheet: Pet 28

Pet 28 is a luxurious Artificial Grass that has been specifically designed to be suitable for dogs and pets. It has been designed to work in conjunction with our ZeoZorb product. The grass has an impressive 28mm Pile Height which allows a layer of the ZeoZorb to sit within the grass, whilst not being visible. ZeoZorb is a special substance that is used alongside artificial grass to help eliminate odours. It has the remarkable ability of being able to absorb ammonia particles in dog urine and then, after some rainfall, it is able to reset and re-absorb even more ammonia.
