# UK's No.1 Choice

for Artificial Grass

Freephone 0800 587 0380

# Why choose Nomow?

## 20 Years Experience

Nomow is a family firm and the UK's longest established manufacturer and installer of artificial grass.

## Thousands Of Happy Customers

We can provide completed sites and hundreds of glowing testimonials which speak for themselves.

## Free Friendly Advice

Call us now for free friendly advice about surfacing solutions, products, installations and pricing.

## Free Site Survey

Every customer is important and every job different, which is why we offer a free no obligation site survey every time.

## Huge Stock

We hold a huge stock of products specially tailored to the needs of our customers, which is why no job is too small or too large.

## 10 Year Guarantee

We are so confident about the quality and durability of our products and installation that we offer a 10 year guarantee.

# Schools & Nurseries

“Nomow has made a huge difference to our school, the results are fantastic.”

Create beautiful, usable, safe outdoor spaces all year round... Over 2000 happy schools & nurseries can't be wrong!

For over a decade Nomow has been installing artificial grass in schools countrywide, and we can supply hundreds of glowing testimonials to back this up!

Nomow surfaces are all weather and extremely hard wearing, installed to any shape and any size. Step onto Nomow and feel the advantages instantly. Nomow provides an alternative surface to paving, tarmac, safety surfacing or mud.

Nomow looks and feels like real grass, it's wonderfully easy to care for, there's no mowing no mess and no mud!

Many schools add more Nomow artificial grass to their surrounding areas every year to create a clean, beautiful play environments.

# Play Areas

“The Nomow fitters were exceptional - always on time, very polite and hard working and they carried on through bad weather.”

Creative, fun and engaging play areas get plenty of use from children, that's why Nomow installations are built to last!

A real grass lawn will rapidly deteriorate if used for more than 6 hours per week summer or winter. Wherever your children play, whether it's around a goal mouth, under a basketball net or under play equipment, Nomow products are the perfect choice for durability.

Nomow products are available with a shock absorbent under layer. 'Nomow Safe' is designed for use under play equipment to provide fall height protection for your children certified to BS EN 1177:2008.

Nomow products are widely used in schools, local authority parks and play areas. Architects, engineers and play equipment installers specify Nomow products exclusively because we are the best.

# Sports Surfaces

“I congratulate you on the calibre of your staff. Very professional. Minor problems were overcome without any fuss and I trust my faith in the Nomow product will be fully justified.”

Nomow can design and install anything from FIFA specification football pitches and all-weather facilities to multi-use games play areas for junior play, to suit your budget.

We can advise on all aspects of construction from sub-base, drainage, sports surface to lighting and fencing. Many schools have opted for coloured sports grasses in creating the imaginative designs produced by Sport England' Primary Spaces initiative. Our range of sports surfaces include;

- ✓ All weather pitches
- ✓ Multi use games area
- ✓ Football Training
- ✓ Tennis
- ✓ Basketball
- ✓ Golf

# Safety Surfaces

“Thanks to everyone involved for making this a very easy and pain free process with very pleasing results!”

Nomow G3 SafeRange is an impact absorbing exterior safety flooring system using a range of durable, natural looking artificial grasses.

Nomow G3 SafeRange is a multiple composite of artificial grass installed over a unique multi-layered laminate of cross linked, closed cell polymer foam which spreads impact and absorbs shock.

Developed in lab conditions, Nomow G3 SafeRange System provides a range of Critical Fall Heights from 1 metre to 3 metres. Each option has been tested to European Standard EN 1177:2008 Impact absorbing playground surfacing and has a patent applied for. (Testing Conducted in an independent, accredited testing facility)

- ✓ Choice of great looking natural artificial grass surfaces to suit user requirements
- ✓ Choice of certified Fall Height dependant on activities
- ✓ Certified for use on tarmacadam, concrete and subsoil surfaces
- ✓ Quick and clean installation - poor weather tolerant
- ✓ Independently tested to EN 1177: 2008

# The science behind the safety

Let them play with peace of mind

Nomow artificial grass provides a soft durable, non abrasive, clean natural looking playing surface.

Shocksafe polymer laminated mat has a dual maxi and micro cell structure which, compresses and progressively absorbs energy under load, ensuring a controlled deceleration in a fall. Following the impact the cell structure recovers 100%.

## Safe Play Surface

A choice of natural looking and rainbow coloured artificial grass surfaces that are safe and durable.

## Weight Spread

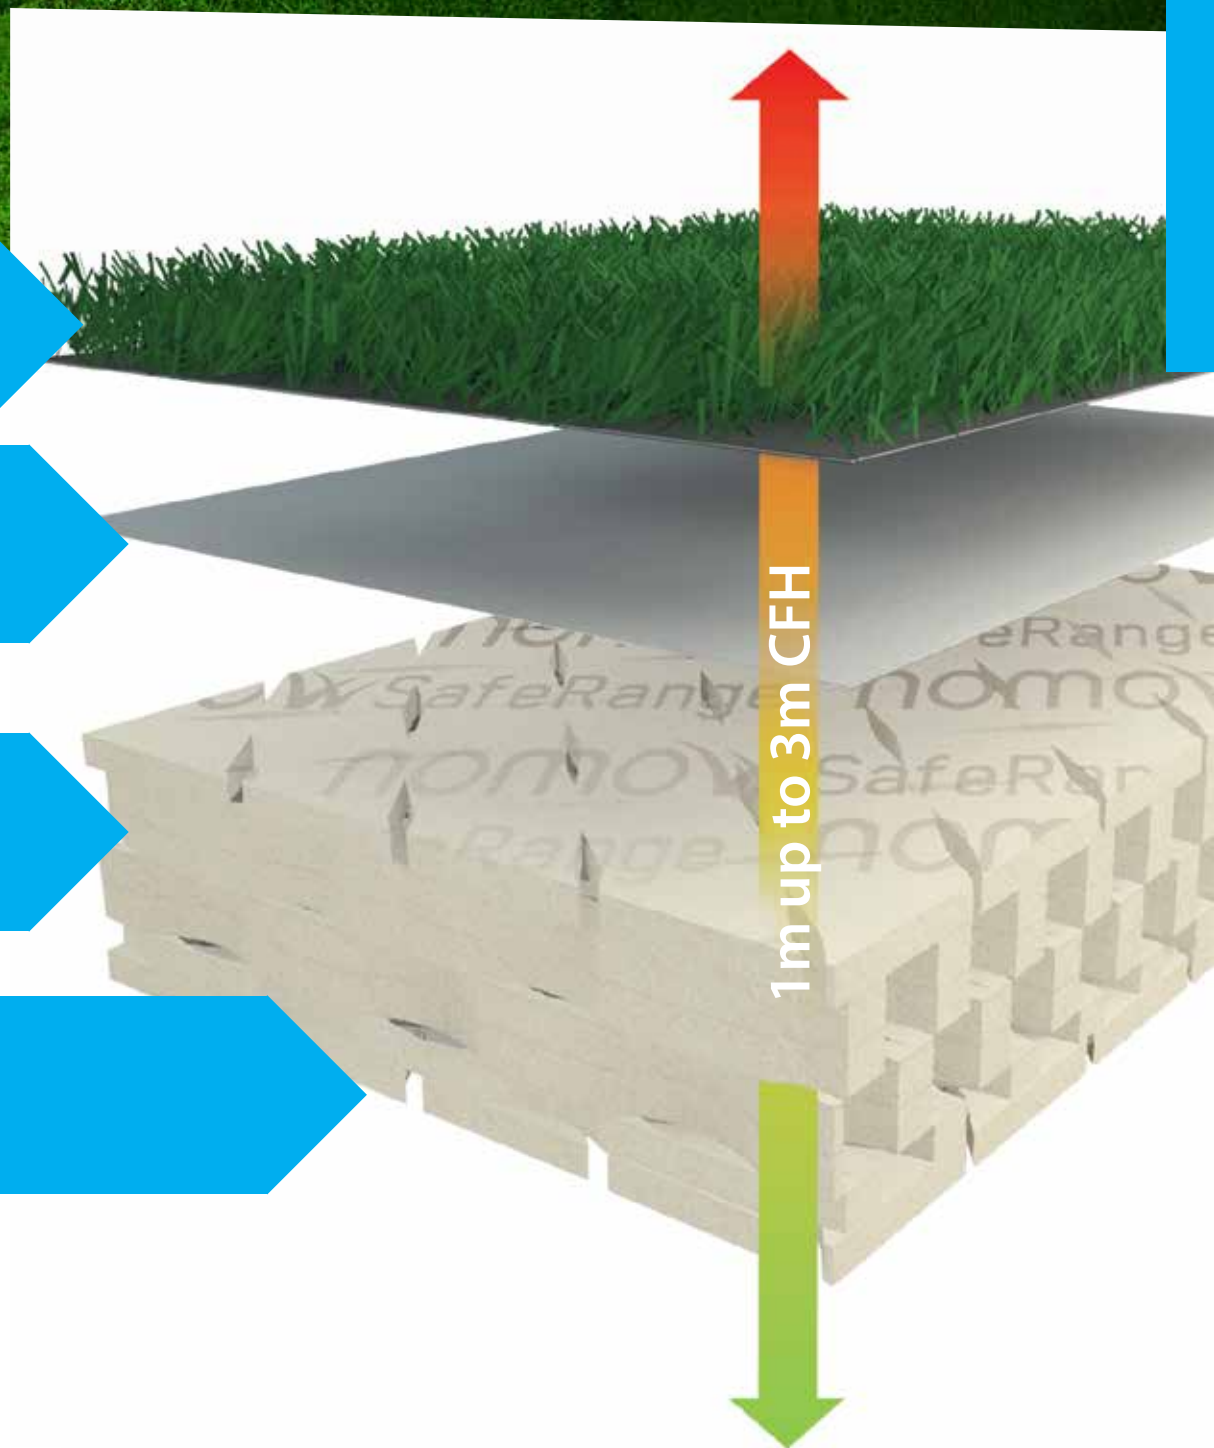

Surface laminate spreads and dissipates the load over a wider area.

## Absorption

Intermediate Nomow foam layers soak and decelerate the energy of a damaging fall.

## Critical Fall Heights

1.0M - 1.7M - 2.2M - 3.0M

# Gardens

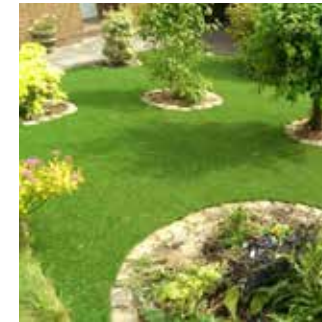

“We’re delighted with our back garden! Many thanks to the Nomow team for such an efficient and professional job!”

At Nomow we never forget that the customer has a choice; which is why we constantly strive to offer the very best products at highly competitive prices and commit to levels of service unrivalled in the industry... which is why over the last 15 years we have grown to become Britain’s number one supplier and installer of artificial grass!

With Nomow artificial grass you can have all the practicality but will love the softness, colour and texture of grass, so you can spend less time working on your garden and more time enjoying it!

It can curve to the contours of your garden. It’s fully porous like real grass. It looks so convincing that your neighbours will have no idea your grass isn’t real.

They’ll just notice it always looks great even though they never see anyone mowing or watering it.

- ✓ Looks and feels like real grass
- ✓ Easy to clean
- ✓ Safe for children and pets
- ✓ No maintenance
- ✓ No fading
- ✓ No pet bleaching
- ✓ No muddy paws or feet

Before

After

# For Dogs

“Thanks to everyone involved for making this a very easy and pain free process with very pleasing results!”

## The Nomow Artificial Grass for Dogs System – Pawfect for Dog Owners.

We have developed an unrivalled and comprehensive Artificial Grass system that takes care of every aspect of an artificial grass lawn that is suitable for dogs. We have split this system into 3 main areas;

- **Grasses – Specifically designed to be more durable and accommodate an in-fill.**
- **Prevention – Specialist in-fill product that helps eliminate smells.**
- **Cleaning – Dedicated products that reduce or eliminate existing smells.**

✓ **Artificial grasses specifically designed for dogs**

✓ **ZeoStop continuously cleans and eliminates smells**

✓ **Cleaners that tackle the smells produced from urine**

✓ **Artificial Grass for dogs, no mud, no mess, no smells**

## Specially Designed Grasses

We have a choice of 2 artificial grasses that have been specifically designed for lawns that will accommodate dogs playing on them.

Both Champion and Best in Show have a unique backing compared to the rest of our range. This is a Polyurethane backing instead of a Latex backing. Latex backing will normally suffice, however if dogs are constantly urinating on your artificial lawn, microbes can grow in tiny gaps on the surface of Latex.

Both grasses have medium-long lengths for their pile heights. Our system includes an in-fill made from our specialist product ZeoStop. Therefore the grasses need to be at least a medium height, to accommodate this in-fill. At the same time, the pile heights for 'Champion' and 'Best in Show' aren't too tall, ensuring that they stand up straight.

### Ideal Grasses for Dogs

#### Champion

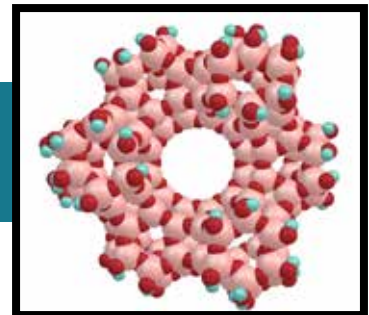

#### Best in Show

### ZeoStop in-fill

ZeoStop is a revolutionary product for the artificial grass world. It has the amazing quality of being able to continuously absorb ammonia in dog urine. The ZeoStop will capture the ammonia molecule and only release it the next time it rains. It then repeats this cycle over and over again, allowing you to enjoy your garden, smell-free and maintenance-free.

# Running track suitable for The Daily Mile™

Artificial Grass is the perfect running surface for a running track suitable for The Daily Mile™.

More and more schools are taking part in The Daily Mile which encourages children to run or jog, at their own pace, for 15 minutes every day. The scheme helps with overall fitness and children's health whilst improving concentration in class and behaviour at home.

Natural grass can create muddy areas and tarmac can cause scraped knees or cut hands if a child falls. Artificial grass is the perfect solution to these issues.

*(It is not mandatory for schools to invest in a running track in order to participate in The Daily Mile.)*

Mixed colours with duotone, 26mm.

## Accessories

A comprehensive range of accessories are available through Nomow.

Our Accessories are specifically designed to work in conjunction with Artificial Grass.

# Frequently asked questions...

## Is the artificial grass affected by dogs or pets?

Artificial grass is ideal for replacing real grass damaged by normal household pets, including dogs. It can also be laid on a solid surface to provide a friendlier, inedible surface for your pets. It is very tough and will not turn yellow or be burnt by dog mess.

## Can Nomow artificial grass be laid on any surface?

Nomow artificial grass is versatile enough to be laid on just about any surface. It can be laid on soil, turf, concrete, tarmac and paving. It copes beautifully with sloping areas. It can even be laid on roof terraces and balconies.

## Does Nomow need any maintenance?

No. You can say goodbye to your lawn mower, your lawn feed and your hosepipe. All you need to do with Nomow artificial turf is remove any material like leaves and dog mess.

## Can Nomow be laid on sloping ground?

Yes. Nomow can be securely fitted to sloping ground. It follows the contours and undulations of any normal garden.

## Does Nomow fade in the sunlight?

No. Nomow keeps its beautiful colour for many years. That's because the fibres have been UV stabilised to comply with quality standard BIN53387.

## Is Nomow guaranteed?

Yes. Nomow artificial grass is guaranteed for ten years. This guarantee includes Nomow grass and Nomow installation.

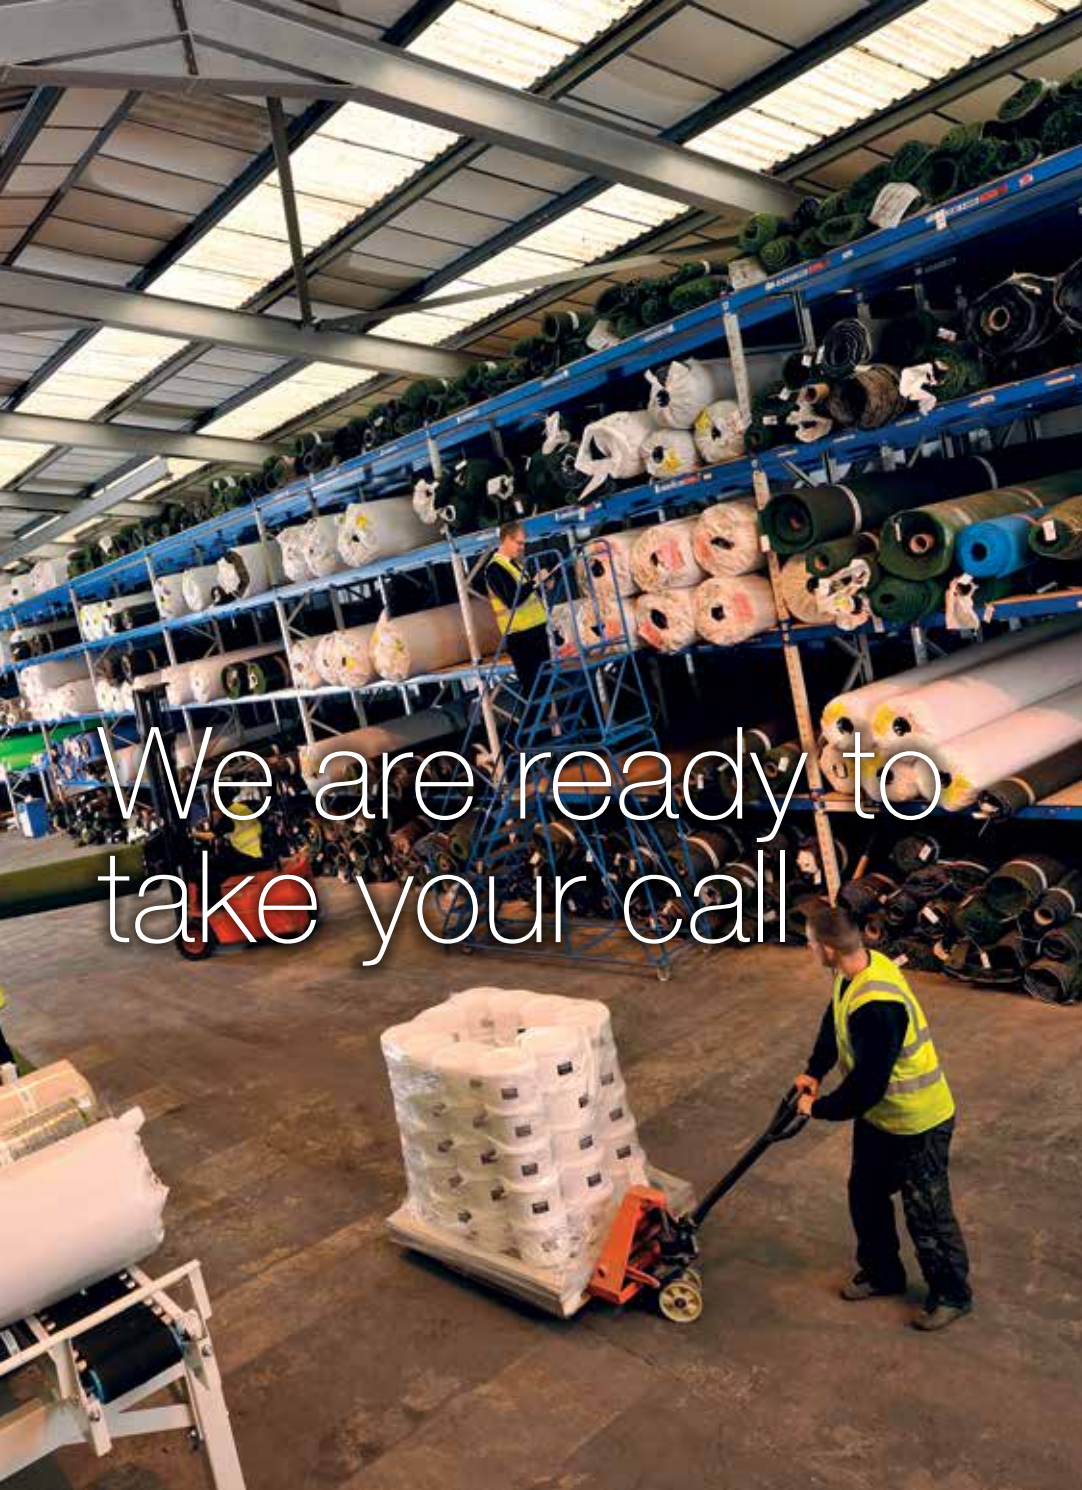

## Is Nomow artificial grass safe for children?

Yes, absolutely. Nomow has been designed with safety in mind and complies to the most stringent safety standards. It has passed hundreds of independent safety tests. Nomow is soft to young skin. Some Nomow ranges also contain a fibre fill layer for extra soft landings.

## How long does Nomow last?

Artificial grass will give you up to 20 years of maintenance free life depending on the volume of traffic in the area. It will retain its colour and integrity season after season.
