

nora[®] pads

Enhanced shine

nora[®]

1. Make sure that the area to be cleaned is marked with warning signs.

2. Important: Polish only floors that have already been cleaned.

3. To polish the floor, use the nora pad 1 with a polishing machine with a speed between 1000 & 1500 rpm.

4. Place the pad underneath the machine with the printed side facing upwards.

5. Damp mop the area to be polished with clear water.

6. Now polish the floor until it has dried and acquired the desired sheen brightness.
