

NOR850

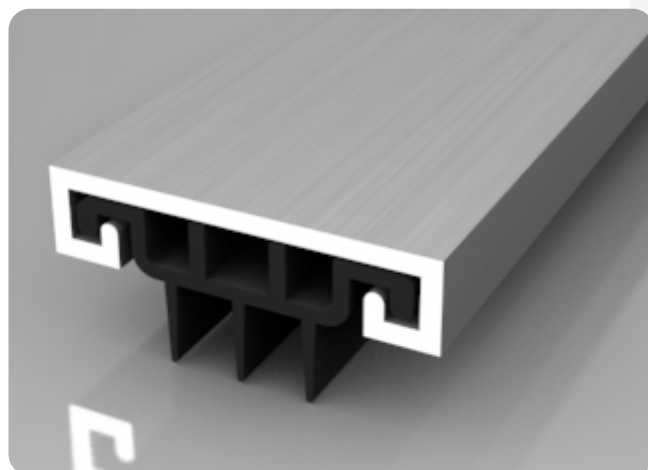

DATASHEET

The Norsound door shoe is a wipe seal which is a great alternative to an automatic drop down seal.

It works with a threshold plate to create a slightly raised area to avoid it wiping over the flooring.

It also creates the dual air pockets synonymously with Norsound products.

NORSOUND

KEY BENEFITS

- Dual air pocket technology to increase acoustic performance
- Ultra soft smooth blades to minimise open/closing forces (Doc 'M')
- Excellent recovery values to increase service life
- Unobtrusive (fully mortised)

FITMENT LOCATION

Single or double swing doors

MIN/MAX GAP SIZE

5mm

SEAL MATERIAL

Gasket: Black

Holder: Satin anodised

FIXING

This seal is mortised. The aluminium is pre-drilled and countersunk. *Supplied with fixing screws and end plates.*
