

NORfast

Datasheet: NOR fast

Using 'dual air pocket technology', NORfast effectively creates a seal between the door and the stop, which boosts the acoustic performance of the door by up to 42dB.

NORfast provides excellent fire and smoke sealing, in accordance with BS 476 Part 31:1 and BS 476 Part 20:22.

Designed to include an intumescent strip, NORfast is capable of expanding or swelling (intumescing) under extreme heat, which provides a greater seal in the event of fire.

The recommended gap tolerance is 3mm - 4mm.

- Acoustically Rated Up To 42dB
- Smoke Seal
- Retro-fit
- Dual Air Pocket Technology
- BS 476 Part 20:22
- BS 476 Part 31:1

Finish: Black, Brown, Grey, White

Material: PVC

Fixing: Self-Adhesive, Surface Mounted

Length: 2.1mtr

Availability: EX-STOCK

Application: Single + Double Leaf Doorsets, Single Action Doorsets,
