

Hi-Riser Changing Table

Hi-Riser is an electrically operated wall mounted changing table that is suitable for children and adults of up to 200kg. Despite being extremely robust, the Hi-Riser offers a slimline design that ensures it fits easily into most environments.

The Hi-Riser comes in a choice of powder coated frame for dry rooms and stainless steel frame for damp environments i.e. bath/changing rooms (not for use with direct water).

Unique Features

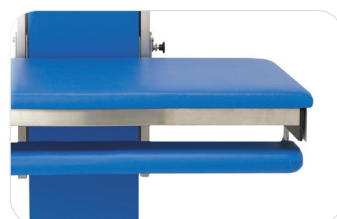

- Wall and floor mounted
- Unique stowaway side rail
- Excellent height range for safe handling
- Suitable to use with a wide number of hoists
- Easy to clean padded surface
- Stows away against wall when not in use
- Space saving design
- Available in 7 sizes
