

HUSKY FOLDING

For folding interior doors weighing up to 25kg and 40kg

Husky folding door hardware provides a simple and flexible solution for both light and medium weight residential folding partitions. Designed for wooden, wood framed and composite doors, its concealed fixings and robust floor gear allow the partitions to be neatly stacked to one or both sides. The Husky Folding 25 can support doors weighing up to 25kg and 610mm wide without a floor channel, and the Husky Folding 40 can support doors weighing up to 40kg and 762mm wide, with a floor channel guide included. The track can be cut to length and extra pivots are required for two doors folding each way.

Product Information

| Product | Kit Order Code | No. of Doors | Track Length | Max. Door Height | Max. Door Width | Door Thickness Range | Max. Door Weight | |
|----------|----------------|---|--------------|------------------|-----------------|----------------------|------------------|------|
