

RUSTIC 80

HENDERSON

80kg Wood Metal Interior

Unique sliding door hardware with beautifully crafted barn style hangers, for doors weighing up to 80kg

Overview

Rustic 80 is ideal for barn conversions, period properties or simply for a unique feature in the home. Suitable for internal doors weighing up to 80kg, the system creates a traditional look for sliding wooden or metal doors with the exposed steel straps fastening down the front of the door to support the rustic finish. The beautifully crafted barn door style hangers run smoothly across the flat bar track.

The system is also now available with an optional soft stop kit. The kit gently decelerates the door upon opening or closing and glides it into its final position, preventing unwanted slamming. The easy to install soft stop kit can be fitted new or retrofitted to existing applications. Two soft close kits can be installed for soft close and open.

Features and Benefits

- Available in 2m or 3m track lengths
- Black or stainless steel finish
- Fittings kit available for double door specifications
- Easy to install soft stop kit available as an optional extra
- Installation video available at www.pchenderson.com
