

RUSTIC 80

Unique sliding door hardware with beautifully crafted barn style hangers, for doors weighing up to 80kg

Rustic 80 is ideal for barn conversions, period properties or simply for a unique feature in the home. Suitable for internal doors weighing up to 80kg, the system creates a traditional look for sliding wooden or metal doors with the exposed steel straps fastening down the front of the door to support the rustic finish. The beautifully crafted barn door style hangers run smoothly across the flat bar track. The system is available in two track lengths and in a black matt powder coat or stainless steel finish. A soft stop kit is available to create a soft opening or close, as well as a fittings kit for when an additional door is required.
