Floorcoverings

National Floorcoverings

National Floorcoverings is a group of companies with a combined expertise in all areas of flooring; from heavy duty fibre bonded flooring, tufted carpets and tiles, artificial sports surfaces through to high quality entrance matting. Together National Floorcoverings can provide high performance yet cost effective flooring solutions for a variety of sectors including commercial, retail, education and leisure. Their customer base includes some of the world's largest consumer and financial brands and Governments.

National Floorcoverings Companies

- Heckmondwike FB
- Playrite
- Paragon
- Mat.Works

Associated Family Companies

- Granwood
- Granwax
- Granfix
- Geofabrics

National Floorcoverings is a UK family owned business that can trace its history back to 1873. Founded within the UK and staying true to its heritage, the group includes a number of manufacturing companies along with other associated family businesses.

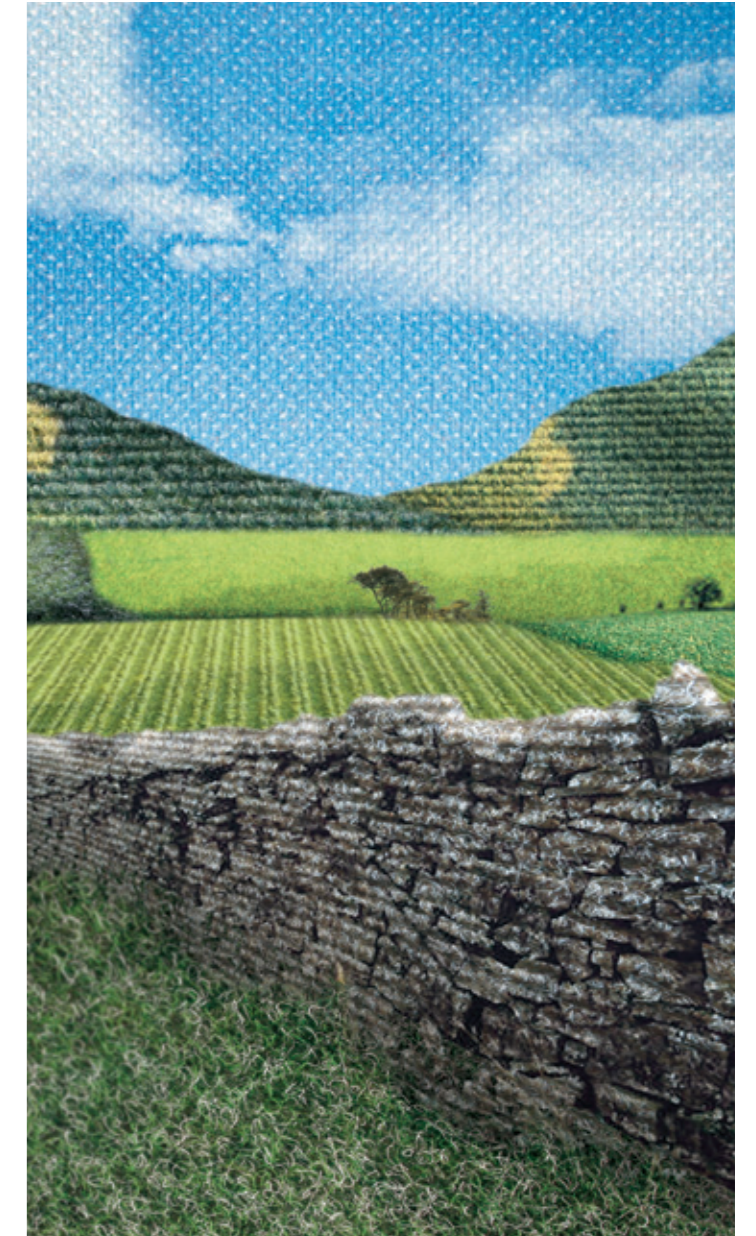

National Floorcoverings continues to research, invest and grow its facilities within the UK home market as well as abroad. With its combined turnover continuously seeing solid and steady growth and them employing hundreds of

UK workers, National Floorcoverings contributes significantly to the local and national economies.

With the Head Office in Ashover, and manufacturing throughout Yorkshire and Derbyshire the group then exports to over 50 countries around the globe including; Australia, the Middle and Far East, the Americas and Africa.

The family is committed to providing world-class customer service through dedicated local teams. The UK manufacturing facilities work to provide fast turnaround on standard products and custom solutions alike. Production processes combine advanced technology with traditional methods to deliver superior products to every customer.

The group operates to the best environmental practises in each of its facilities and commits to supporting and adhering to relevant product standards, helping to preserve and grow the UK's future.

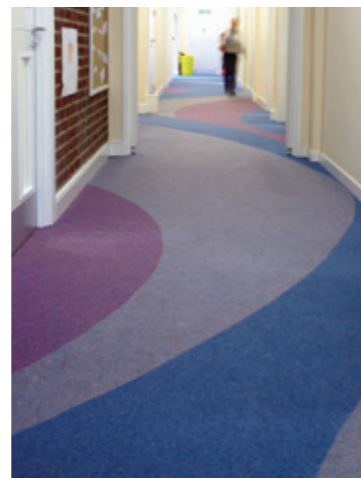

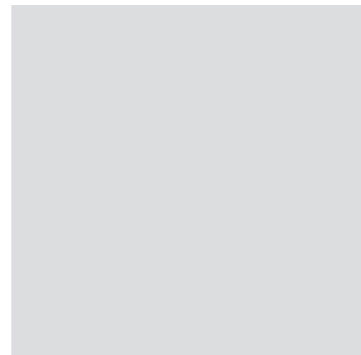

Heckmondwike

Quality in every fibre

As a specialist UK manufacturer for over 40 years, Heckmondwike offer a comprehensive range of heavy contract, fibre bonded carpet and tiles along with specialist entrance area ranges.

With a wide choice of colours and finishes, customers have recognised the design opportunities to cost effectively create the 'wow' factor with durable, fibre bonded carpets that are the perfect choice for areas of heavy wear and tear in the education sector and beyond.

Heckmondwike takes its environmental responsibilities seriously with Supacord, Broadrib, Montage, Momentum and Wellington Velour all gaining a BRE Global A+ environmental rating for use in school buildings, offices and retail outlets. All our fibre bonded carpets are manufactured at our site in West Yorkshire which has full certification to the Quality standard ISO 9001 and the Environmental standard ISO 14001. This reflects the company's commitment to continuous development of total quality solutions and the minimisation of environmental impact.

Famous for innovation and always offering the highest quality synthetic surfaces, it is no surprise that Playrite has been successfully manufacturing products for the sport, play and leisure industries for over 20 years.

The fact that Playrite are the only UK manufacturers of needlepunch, woven and tufted surfaces highlights the fact that we can offer our customers the best product for an individual project with surfaces that can last up to ten years - increasing revenue as well as usage.

Our high attention to detail and total control over production means that we can offer superior surfaces with a fast turnaround when our customers need it most. Everyone at Playrite is fully committed to offer advice and expertise at any stage in a project and our award winning range of multi use sports surfaces alongside dedicated surfaces for tennis, football, bowls and cricket stand the test of time.

20 years
OF MANUFACTURING
SURFACES FOR
SPORT, PLAY & LEISURE

Since the establishment of Paragon in 1997 the company has become a major supplier in the tufted carpet tile and broadloom markets. In the past ten years Paragon has increased its market share of the ever expanding tufted carpet market sector by offering modern design, excellent customer service and a varied portfolio of products to choose from. This exciting range includes products ranging from design loops to cutpiles, carpet tiles to select broadloom products.

Paragon is not just a manufacturer of quality carpet tiles; it is also a manufacturer with a social conscience and has always been committed to conducting business in an environmentally friendly way, as shown by its status as a manufacturer of BREEAM 'A+' rated products. Paragon is an established pioneer in environmentalism having built its factory on Brownfield land situated in the derelict site of a former coal mine and slag heap.

By building one of the most environmentally friendly carbon emission tile factories in Europe, Paragon not only brought employment and improvement benefits to a regeneration area but the ability to produce a number of 100% recyclable carpet tile ranges.

FLOORING PERFECTION

mat.works

Flooring Solutions

Welcome to Mat.Works Flooring Solutions
the home of slip reduction products
for the workplace.

Here at Mat.Works we look to create a safer working environment for our clients through the use of innovative, easy to use products that can help, over time, reduce a facilities running costs, reduce liability to slip and fall, reduce expensive maintenance to worn or damaged floors. We have helped some of our end user clients reduce their liability to slip by as much as 40% in real terms.

Our new online shop caters for the end user where you can buy loose lay mats, anti fatigue mats and other consumables designed for use in commercial applications such as schools, retail, hospitals and our specification led products designed for use by architects, contractors and flooring contractors.

Got a problem with your floor, Solve it with Mat.Works!

Quality British Floors for Every Location

Granwood offers an environmentally friendly alternative to hardwood timber flooring for indoor sports and multi-use facilities. The main components of the unique Granwood composition wood block are recycled pallet sawdust and linseed oil combined with cement, limestone and a naturally occurring colour pigment. Combining the elegance of wood with the durability and versatility of colour design found in a tile,

Granwood blocks are both fire and moisture resistant and many floors have lasted the lifetime of the building they are in.

Granwood was invented in the early 1900's and has been developing ever since. Over 6 million square metres of Derbyshire made Granwood blocks have been installed in over 50 countries worldwide and approximately 60% of all UK indoor

sports are played on Granwood each week. Offering a complete service package, Granwood manufacture, survey and install their flooring systems, providing unrivalled aftercare support during the life of the floor.

GEOfabrics™

GEOfabrics Limited is a UK manufacturing company established in 1992. From the outset the objective has been to manufacture high-performance products tailored for use within the demanding environment of a global construction industry.

The company's ethos is to continually exceed the expectations of both existing and future customers with innovative and effective products supported by an established technical service within our core markets of:

- Engineered Landfill
- Railway Construction
- Coastal and River Protection Works
- Drainage Control

This has been achieved by understanding the customer's problem, determining the necessary properties and functions that are required, manufacturing the solution and then rigorous

quality testing to demonstrate that the product meets those requirements.

GEOfabrics has a dedicated and experienced team of personnel that cover both commercial and technical departments and that work in unison to provide the necessary attributes to meet our global challenges.

GRANFIX PRODUCTS

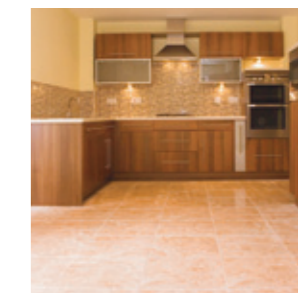

Granfix Products, established in 1990, are now one of the leading suppliers of adhesives, grouts, levelling compounds and ancillary products to the retail and contracting wall and floor tile marketplace.

Manufactured at our bespoke factory in Derbyshire, our quality range of products include specialised ranges for marble, stone, slate, porcelain and ceramics.

Recent investment into state of the art machinery has doubled output capacity and a further 25,000sq.ft has been added to our warehouse distribution operations.

All products meet and exceed European Standards and are continually updated and improved by our dedicated quality and development department. Granwood offer both in-house technical support and highly experienced on the road training consultant for our customer needs.

GRANWAX Products Limited

Granwax Products Limited is committed to manufacturing only the highest quality floor seals, finishes, cleaning and maintenance products for timber and Granwood flooring systems – all backed by its second-to-none sales and aftercare support services.

Granwax constantly strives to be at the forefront in the development of new products. This has resulted in a comprehensive range of finishes for timber and Granwood floors, which includes traditional solvent-based finishes, high traction safety finishes, hard wax oil finishes, environmentally friendly water-based finishes and specialist sports floor finishes.

The expert Granwax team is also available to offer advice on all aspects of flooring maintenance, recoating preparation and recoating procedures, as well as providing help and guidance on all types of problem floors.
