PAROC SSB 1

Step sound board

Certification Number	0809-CPR-1015 / VTT Expert Services Ltd, P.O. Box 1001, FI-02044 VTT, Finland
Designation Code	MW-EN13162-T5-DS(70,-)-CS(10)15-WS-WL(P)-MU1
Short Description	Rigid, fire safe stone wool board with high acoustic insulation perfomance.
Application	Impact sound insulation in intermediate floors. The product is used as a floating resilient layer underneath a floating concrete slab.

PAROC stone wool products are capable of withstanding high temperatures. The binder starts to evaporate when its temperature exceeds approximately 200°C. The insulating properties remain unchanged, but the compressive stress weakens. The softening temperature of stone wool products is over 1000°C.
