PORTMAN

Single timber door leaves

For doors over 2700mm high or 1500mm wide, please contact the sales office.
If self-closing/damper units are required, please request at time of order. For doors over 2400mm high the use of the P5700 reinforcing kit is recommended (see page 27 for details).

If ordering for frameless glass door leaves (individual leaf up to 1280mm wide only), please choose "0"-suffixed kit from the standard/intermediate kits below, glass clamps and timber jambs, page 23.

Dimensions (max door thickness 44mm)	
Single Door	
Wp = Door panel width	Sp = Wp-9mm
Hp = Door panel height	Op = Wp-23mm
W = (2Wp)+11mm	Oh = Hp-7mm
