Technical specification

1- **The 125mm round posts** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi, insects and termites.

2- **The platforms** are made from a 12.5mm thick, textured, non-slip compact material (HPL). Further reinforcement is provided by lacquered galvanised steel supports, located on the underside of the platforms.

3- **The tubes** are made of stainless steel guaranteeing lasting durability and reliability of the equipment.

Injection moulded polyamide fixings are non-toxic, non-flammable, shock resistant and ultraviolet radiation resistant. They give the units their sturdiness and help them to stand up to vandalism.

4- **The ropes** are made of galvanised steel cable covered with polypropylene. Injection moulded polyamide connectors link the cables and keep the nets in shape.

5- **The climbing holds** are made of polyamide for its strength and rigidity.

6- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. .

7- **The fixings** are made of stainless steel and are protected by polyamide anti-vandal caps.
