

## Technical Information Sheet Article No. 0693

# Mildew Stop

Special cleaner for removing unsightly mildew  
Registration No.: N - 12218

### Range of use

Remmers Mildew Stop is used to remove mildew on tiles, in joints, on render, stone, plastic, varnished surfaces and other water resistant substrates.

### Property profile

Remmers Mildew Stop is a special, active cleaner with a fast effect against biological infestation. Without solvents, substrate-neutral.

### Directions

Spray the original solution in the spray bottle at a distance of approx. 15 cm directly onto the substrate.  
If stains are still visible after 30 minutes, spray again and rinse off with warm water.

### Notes

Before first use, test Mildew Stop on an inconspicuous area to ensure compatibility of material. Do not spray on textiles or plants. Wash off blank metals immediately with water. Do not mix this product with other cleaning products.

### Characteristic data of the product

Composition:	water based solution of sodium hypochlorite, halogen derivatives, stabilisers, wetting and promoting agents
pH:	approx. 11.5
Density:	approx. 1.02 g/ml

**Use biocidal products safely and responsibly. Always read the label and product information before using!**

### Packaging, application rate, shelf-life

**Packaging:**  
500 ml spray bottles  
**Application rate:**  
Depending on the degree of infestation up to 0.1 l/m<sup>2</sup>  
**Shelf-life:**  
At least 12 months in closed, original bottles stored cool but frost-free.

### First aid measures

- **General notes:**  
Take off clothing soiled with the product immediately.
- **After inhalation:**  
Ensure fresh air.  
See a doctor if you have symptoms of discomfort.

- **After skin contact:**  
Wash immediately with soap and water and rinse thoroughly. If skin irritation persists, seek medical advice.
- **After eye contact:**  
Rinse open eye for several minutes under running water and seek medical attention.
- **If swallowed:**  
Rinse out mouth and drink copious amounts of water. Do not induce vomiting, seek medical attention immediately.

### Safety advice

Keep locked up and out of reach of children.  
Avoid contact with skin.  
Do not lead into the sewer system. Wear suitable protective gloves and face/eye protection when working.

**Personal protective equipment is required for spraying procedures and when cleaning dry. Use respiratory protection with a particle filter P2 (made by e.g. Dräger). For suitable protective gloves, see Safety Data Sheet. Wear closed work clothes.**

### **Safety, ecology, disposal**

Further information on safety when transporting, storing and handling as well as on disposal and ecology is found in the latest Safety Data Sheet.

The statements above are compiled from our field of production and according to the latest technological developments and application techniques.

Since application and working are beyond our control, no liability of the producer can be derived from the contents of this information sheet. Any statements made beyond the contents of this information must be confirmed in writing by the producer.

In all cases, our general conditions of sale are valid. With the publication of this Technical Information Sheet all previous editions are no longer valid.
