

Technical Information Sheet Article No. 1365

Thinner V 100

Thinning agent for Relö Rust Inhibiting Primer Paint and Relö Colour Varnish

Property profile

Thinner V 100 is a solvent and thinning agent to adjust spraying and brushing viscosity and for cleaning tools.

Working instructions

When worked at successional surfaces, materials with similar bath numbers may just be processed because it possibly amounts to differences in colour, constitution or brilliance.

Notes

Always keep containers tightly closed and protect from strong heat.

Tools and cleaning

Tools and any stains should be cleaned immediately while fresh with water.

Wear suitable protective gloves to avoid contact with skin.

Further information is found in our tools programme.

Personal protective equipment

Suitable nitrile-gloves, protection goggles and splash guard.

Further information is found in our tools programme.

Characteristic data of the product

Flash point:	52 °C
Density:	approx. 0.82 kg/l
Colour:	clear
Packaging:	1 l, 5 l, 10 l and 30 l tin cans

Packaging, application and storage

Safety, ecology, disposal

Further information concerning safety during transport, storage and handling as well as for disposal and ecology is found in the latest Safety Data Sheet and in the brochure "Expoxidharze in der Bauwirtschaft und Umwelt" of the German construction chemistry (2. issue, status 2009)

The statements above are compiled from our field of production and according to the latest technological developments and application techniques.

Since application and working are beyond our control, no liability of the producer can be derived from the contents of this information sheet. Any statements made beyond the contents of this information must be confirmed in writing by the producer.

In all cases, our general conditions of sale are valid. With the publication of this Technical Information Sheet all previous editions are no longer valid.
