

Technical Information Sheet Article No. 5699

V 103 Thinner

Solvent mixture of aromatic hydrocarbons and alcohols

Range of use

V 103 Thinner is a universal solvent for thinning and cleaning.

Directions

When cleaning tools used for working and spilled or splashed material, not yet cured material can be removed with V 103.

When used for thinning, V 103 is vigorously stirred into the material to be diluted until the desired consistency has been achieved. In normal cases, 5 - 10 % by weight suffices.

Wear suitable protective equipment when working (see also Personal protective clothing).

Personal protective equipment

Suitable nitrile rubber gloves, glasses, splash protection. Further information is found in our tool programme.

Examples for use

Ideal for thinning and dissolving not yet reacted reactive resin products, especially Remmers Epoxy Universal.

Characteristic data of the product

Density:	0.82 g/cm ³ at 20 °C
Flashpoint:	approx. 23 °C

Notes

Ensure good ventilation when working. Avoid open fire and contact with skin (wear suitable gloves).

Because of the alcohols it contains, V 103 Thinner is not suitable for thinning polyurethane coatings (e.g. PUR Indu Color).

Packaging, application and storage

Packaging:
5 l tin cans

Application rate:
Depending on application

Shelf-life:
Shelf-life is indefinite when properly stored in the original container.

Safety, ecology, disposal

Further information on safety for transporting, storage and handling as well as disposal and ecology are found in the latest Technical Data Sheet.

Emergency information:

Mon.-Thurs. from 7:30 a.m. to 4:00 p.m.; Friday from 7:30 a.m. to 2:00 p.m.
