CURVED Screens

Panel screen linked with one third/two thirds perforated inner sections

Aluminium

to provide a more natural envi

Natural curves. Solid wood. Pure elegance...nothing matches the style of the new Sussex curved screen system.

Freestanding or linked, Sussex curved screens create exciting new possibilities for the division of space...natural shapes and materials combined in a unique state of the art design.

The Sussex system provides a completely new range of options...your choice of timbers, frames, heights and widths.

All with an almost endless selection of panel styles and finishes - solid, trellis, perforated, glazed...Sussex screens really do give a new perspective to interiors.

Timber options for all screens

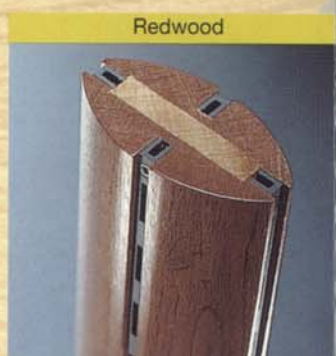

Pine

Beech

Ash

Redwood

Sussex planters

To complement the curved Sussex range are our curved planter boxes available in matching timbers, complete with liners for real or artificial foliage.

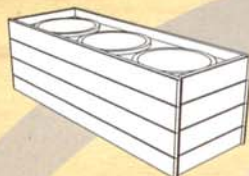

BN1 H 400 W 510 L 1180

BN2 H 400 W 360 L 1180

BN3 H 400 W 510 L 640

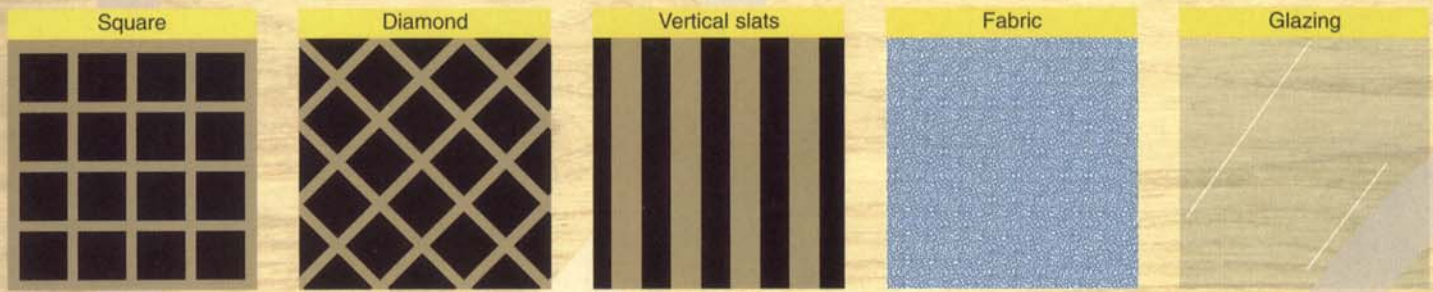

BN4 H 400 W 420 L 1130

BN5 H 790 W 400 L 400

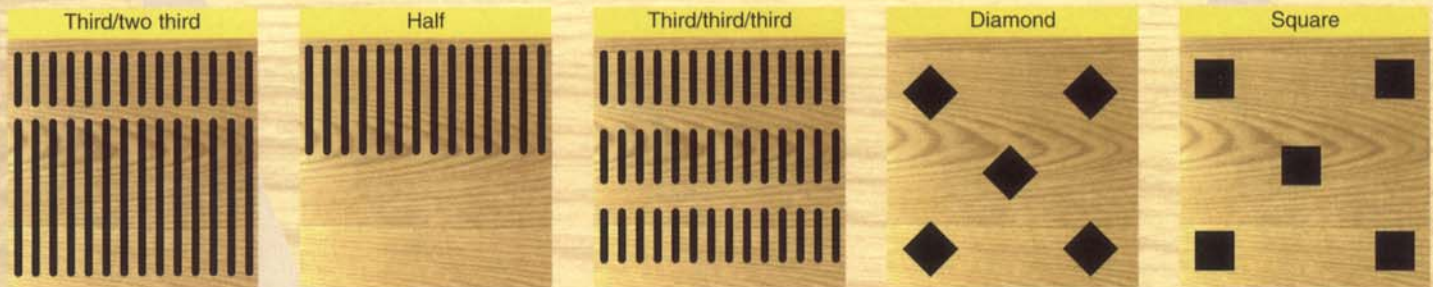

Panel screen - trellis inner sections

to offer greater flexibility...

Panel screen - perforated inner sections

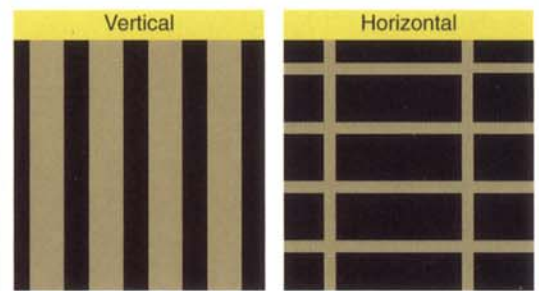

Each panel screen is individually manufactured and built up of either perforated, trellis or solid inner sections. This gives the choice of having one, two or all three different

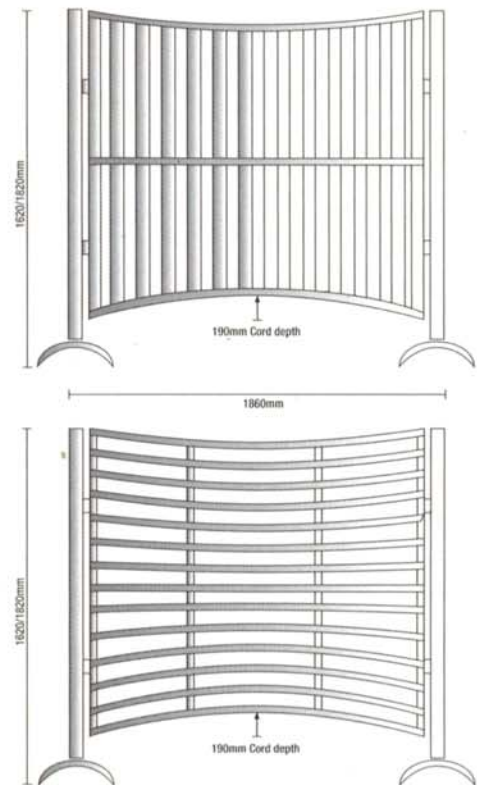

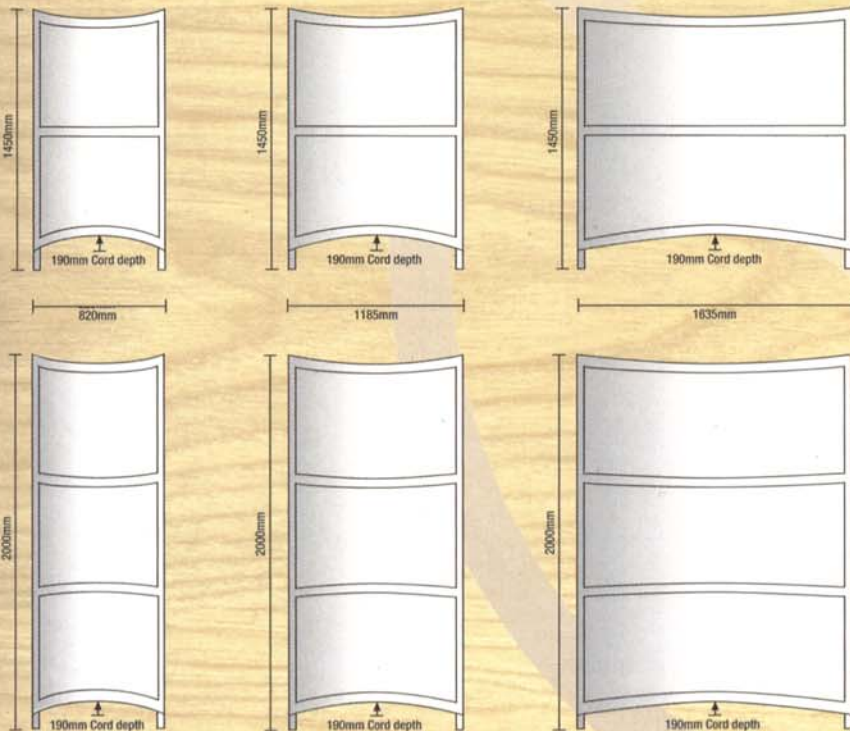

inner sections on each screen, depending on the style you wish to create. All screens are available in straight or curved modules.

Post panel screens

Panel screen modules

When ordering specify screen type, height and width with choice for each section e.g.- Panel screen-2000H x 1185mmW - Top third/two thirds, Middle - Solid and Bottom - Square trellis.

Sussex CURVED Screen Range

T E C H N I C A L D A T A

Panel Screen

- Height:** 1450mm or 2000mm as standard, or special height on request.
- Cord Width:** Cord width is taken from side frame to opposite frame and measures as 820, 1185 and 1635mm as standard, or special lengths on request.
- Linking:** Hidden linking system built into frame allowing frame sides to link in line together. Please specify when ordering if you require them to be linked. It is possible to create three and four way linking, using a timber linking column 85 x 85mm sq.
- Frame:** Constructed from solid timber with 45mm face x 35mm depth, 60mm face for middle profile.
- Timbers:** Beech, ash, pine or redwood timbers as standard, alternative choices available on request.
- Inner Sections:** Choice of solid sections including timber veneers with or without perforated slots, fabric, vinyls, laminate or wallpapers are available, with the facility for many more options including trellis or glazing. See options page for standard choices.
- Finish:** Natural or coloured water based lacquers on all timber.
- Feet:** Free standing or floor fix feet available in mild steel with brown powder coat finish as standard, other colours available on request.
- Curved Screen:** Cord depth on curved screens 190mm.
- Straight Screen:** Screen available in straight lengths of 820, 1185 and 1635mm wide, constructed equally to curved screens, enabling you to create longer runs mixing curved with straight screens.
- Custom:** As manufacturers we have the capability to design and make a screen to your own needs, whatever the height, width, shape, colour or quantity.
- Delivery:** Each screen is individually manufactured to meet your special requirements and will take four to six weeks.

Post & Panel Screen

- Height:** 1620mm or 1820mm as standard.
- Cord Width:** 1860mm wide.
- Linking:** Linking system built into the oval post, allowing you to create two, three or four way screen connection. In addition to screen linking, signs or accessories can be hung from post.
- Post:** Each post is 100 x 52mm in an oval shape with a choice of timbers to match with the screens, or a metal aluminium post which can be powder coated if preferred.
- Timbers:** Beech, ash, pine or redwood timbers as standard, alternative choices available on request.
- Inner Sections:** Choice of two timber options, either vertical lengths, shaped to match the oval post in a curved frame or a curved trellis using square and round timber profiles. See options page for choices.
- Finish:** Natural or coloured water based lacquers on all timber.
- Feet:** Choice of timber arched free standing foot or metal free standing or floor fixed flat foot with powder coat finish.
- Accessories:** Signage or display equipment can be hung from the oval posts.
- Curved Screen:** Cord depth on curved screen 190mm.
- Straight Screen:** Screen available in straight lengths of 1950mm wide, constructed equally to curved screens, enabling you to create longer runs mixing curved with straight screens.
- Custom:** As manufacturers we have the capability to design and make a screen to your own needs, whatever the height, width, shape, colour or quantity.
- Delivery:** Each screen is individually manufactured to meet your special requirements and will take four to six weeks.

If you cannot see the screen you are looking for, whatever the size, colour or construction, as manufacturers we have probably made something similar before.
