

Lime Tree Hotel

SDS London are proud to have worked on the refurbishment of Belgravia's finest boutique hotel.

Lime Tree Hotel made it to the top 10 list of Londons finest hotels in CN Traveller Magazine.

Part of the refurbishment were the common areas, including the reception, offices & corridors.

Polished Brass door furniture for the SDS Suites range now decorate the hotel in Ebury Street, including the new Buttery Cafe which opened in 2020.

The stunning Lime Tree Hotel boasts 28 beautiful bedrooms, some of which can be seen in our images.

It has the air of a place in the countryside, and the project includes a mixture of lever handles, pull handles, and knobs.

The rear French doors of the hotel were also included, and now hold beautiful polished stainless-steel handles and associated ironmongery.

The extensive refurbishment of the two grade II-listed townhouses into a delightful boutique hotel.

We are lucky to be chosen to have our ironmongery featured in this beautiful building and chosen by the owners themselves.

SDS London Ltd, which has been in business for over thirty years, supply hardware to the retail and trade sectors, and is headquartered in Wimbledon, London – with a showroom in Battersea.

We are now showcasing the very best projects in which we are lucky to be a part of.
