

Symmetry

A SUITE OF CHAIRS WITH A COMMON DESIGN LANGUAGE

by **Senator**

So why Symmetry? Is it the Symmetry of the beautifully crafted die-cast polished aluminium back supports that link the frame to the back, or is it the Symmetry that exists between the three differing versions of this cantilever meeting chair. In a sense, it's all of the above. Meetings form an ever increasingly important part of business activity so having a suite of cantilever chairs with a common design language and footprint provides an invaluable tool for a client wishing to differentiate its meeting and conference environments.
