

Trillipse

THE ORIGINAL MULTIPURPOSE CHAIR FAMILY

by **Senator**

Design Paul Brooks & The Senator Group Design Team

The original multipurpose chair family. It is the scale, comfort and uncompromising build quality that have ensured the continued success of this range.

The Motion version adds castors to the base frame, making the chair ideally suited to smaller more ad hoc meeting environments, project rooms and educational spaces. It also accepts the standard four leg version as a stacking companion allowing a small number of chairs to be easily moved around the workplace.
