

Logitech Group Kit setup

 See the video on our YouTube channel: [How to Setup Logitech GROUP Kit](#)

1. Connect all components to the Intel NUC
 - Power
 - Network
 - ConferenceCam
 - Display
 - K400+ keyboard
2. Set up accessory devices according to their respective instructions
3. Power on the NUC
4. Follow on-screen prompts to activate Windows
5. Refer to the Read Me First document on the Windows Desktop for next steps (this includes details for installing the Quicklaunch software).
