

logitech

A FAMILY THAT GETS ON GREAT IN A HUDDLE.

Logitech MeetUp Kit with Intel® NUC

Finally, the flexible collaboration solution you've been waiting for to enhance productivity, strengthen personal connections, and deliver a truly awesome video conference experience. Logitech® MeetUp Kit with Intel® NUC video conferencing system — configured and validated for performance and compatibility — includes a Logitech MeetUp, Wireless Touch Keyboard K400 Plus, Intel® NUC, Intel Unite™ and Illuminari Quicklaunch SE.

No more guesswork trying to figure out which components work together. This pre-configured collaboration bundle provides rich, beautiful HD video conferencing that works with any VC software application or cloud service — including the ones you already use.

No need to waste precious time trying to get things to work: simply walk into the room and quickly start your meeting.

The Illuminari Quicklaunch SE interface provides a simple, consistent, and familiar experience time after time, and can be easily customized to meet the needs of different teams. The high-performance, small form factor Intel NUC, with Intel Unite, delivers a robust collaboration and sharing experience meeting after meeting.

Welcome to a whole new era of video conferencing flexibility and simplicity with the Logitech MeetUp Kit with Intel® NUC.

Logitech MeetUp Kit

with Intel® NUC

Configured and Validated for Performance and Reliability

No more guesswork trying to figure out which components work best together to support a premium and consistent huddle room meeting experience.

Easy-to-buy

In a single package, you get a video conferencing bundle that includes an Intel® NUC, Intel Unite, Logitech MeetUp, and Logitech wireless keyboard. This bundle can be easily purchased through your channel partner of choice.

Scalable and Affordable

Deploy video in every meeting room at a fraction of the cost to upgrade your current video conferencing solution and avoid unnecessary maintenance costs.

Logitech MeetUp Kit

LOGITECH MEETUP

Super-wide 120° field of view

Allows everyone in the room to be seen, even those close to the camera or seated at the edges of the room.

Ultra HD 4K image sensor

Supports multiple resolutions, including 4K (Ultra HD)² 1080p (Full HD) and 720p (HD) to best support the quality offered by your application and monitor.

3-microphones and custom-tuned speaker

Three broadside beamforming, omni-directional microphones with noise and echo cancellation—plus a custom-tuned speaker—are specifically optimized for small conference rooms.

All-in-one design

Compact all-in-one form factor takes up less space and minimizes cable clutter.

UNIVERSAL COMPATIBILITY

Works with all PC based UC and video conferencing applications¹

Microsoft® Lync®, Skype for Business, Cisco Jabber®, WebEx®, Blue Jeans, BroadSoft, Lifesize, Vidyo and Zoom.

SYSTEM COMPONENTS
