

An easy to use, modern replacement for traditional dry-erase boards and flipcharts, SMART kapp offers a leap in functionality and delivers reliable collaboration. Working with an app that allows you to connect your iOS or Android device to save content as snapshots and share your work in real-time. As content is written on the board, it appears in real-time on the paired device and can be shared instantly with up to five users via the live web-sharing feature enabled by the app.
